ATX Mid-Tower Computer Case

D40

- Panoramic tempered glass design maximizes system visibility
- Dual-chamber structure enhances bottom intake airflow efficiency
- 8-Degree sloped bottom design to maximize airflow while minimizing GPU interference
- USB 3.2 Type-C port for faster data transfer
- Excellent hardware compatibility: Maximum GPU Length 410mm, Maximum CPU height 160mm
- Pre-installed 7 high-performance ARGB fans
  (3 X Side Fans, 3 X Bottom Fans 1X Rear Fan)

Deskterior PC Case

Unobstructed View
D40 Dual-Chamber Panoramic Design

A frameless panel design eliminates visual barriers, delivering a clean and open view.

Seamless integration between the front and side panels ensures a perfect system display from any angle.

The front and side tempered glass panels feature a ball-head push-pin mechanism, allowing quick and easy removal for maximum convenience.

Minimal I/O Layout with Essential Ports

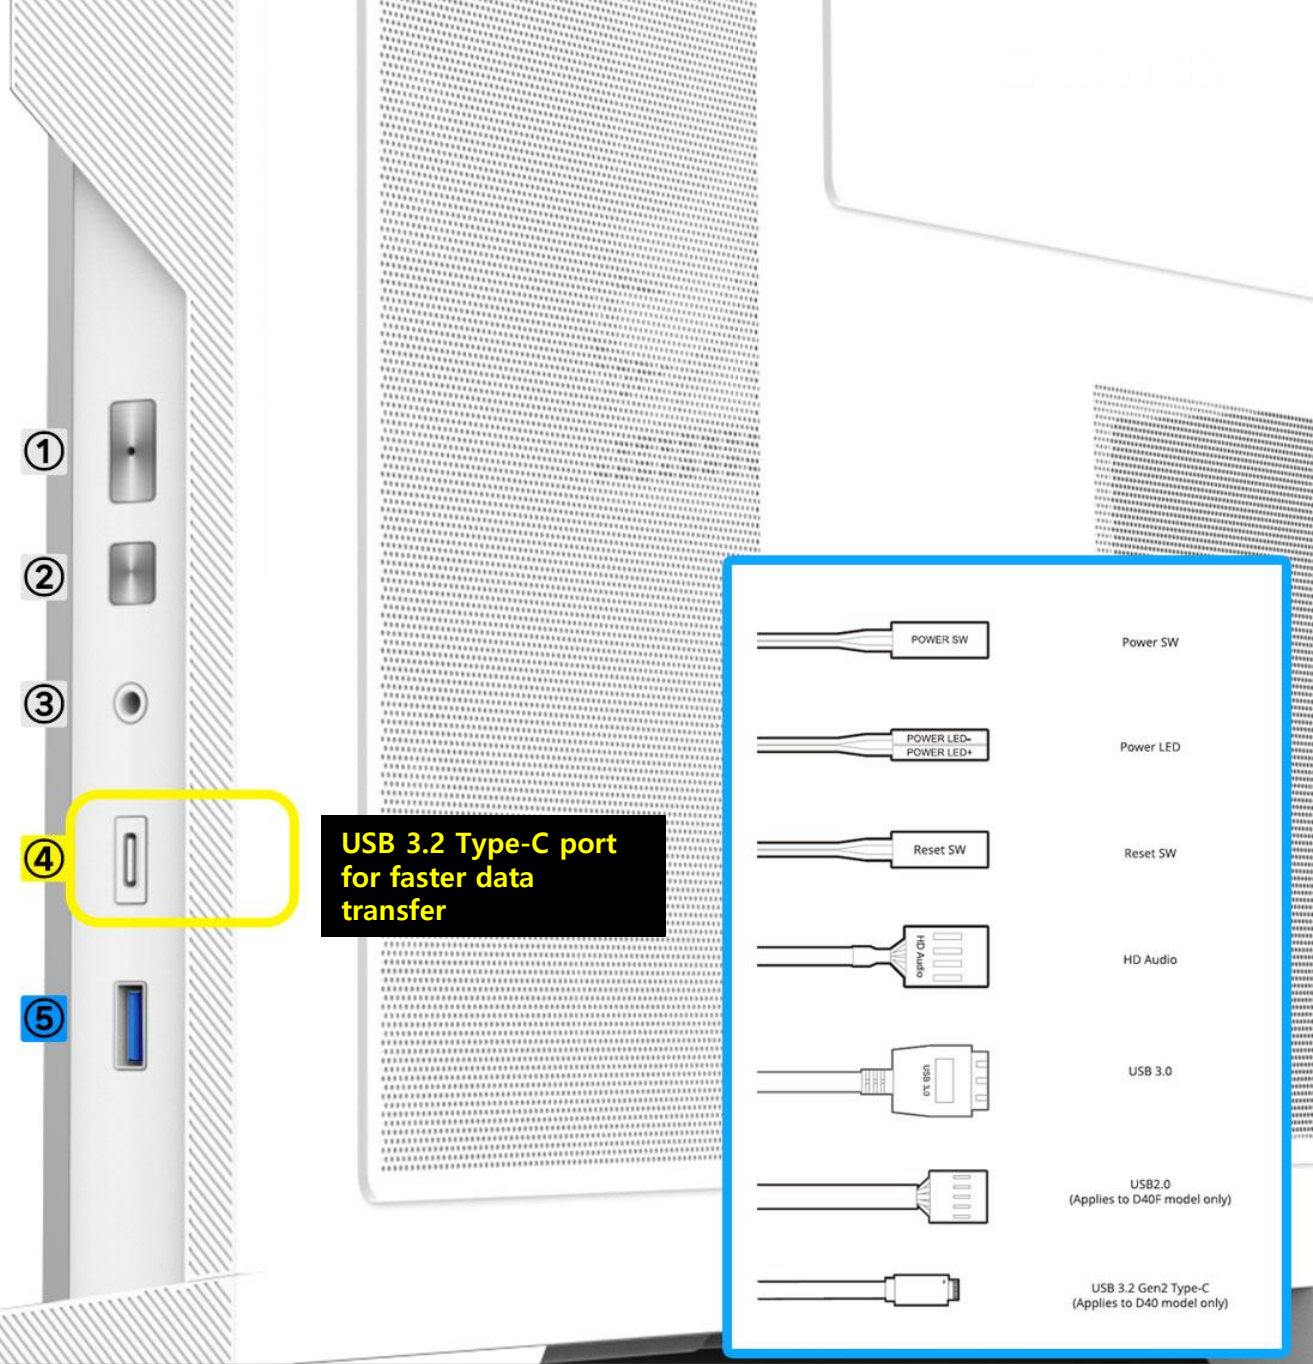
② Reset Button
③ Microphone, Headphone Jack
④ USB Type-C
⑤ USB 3.0



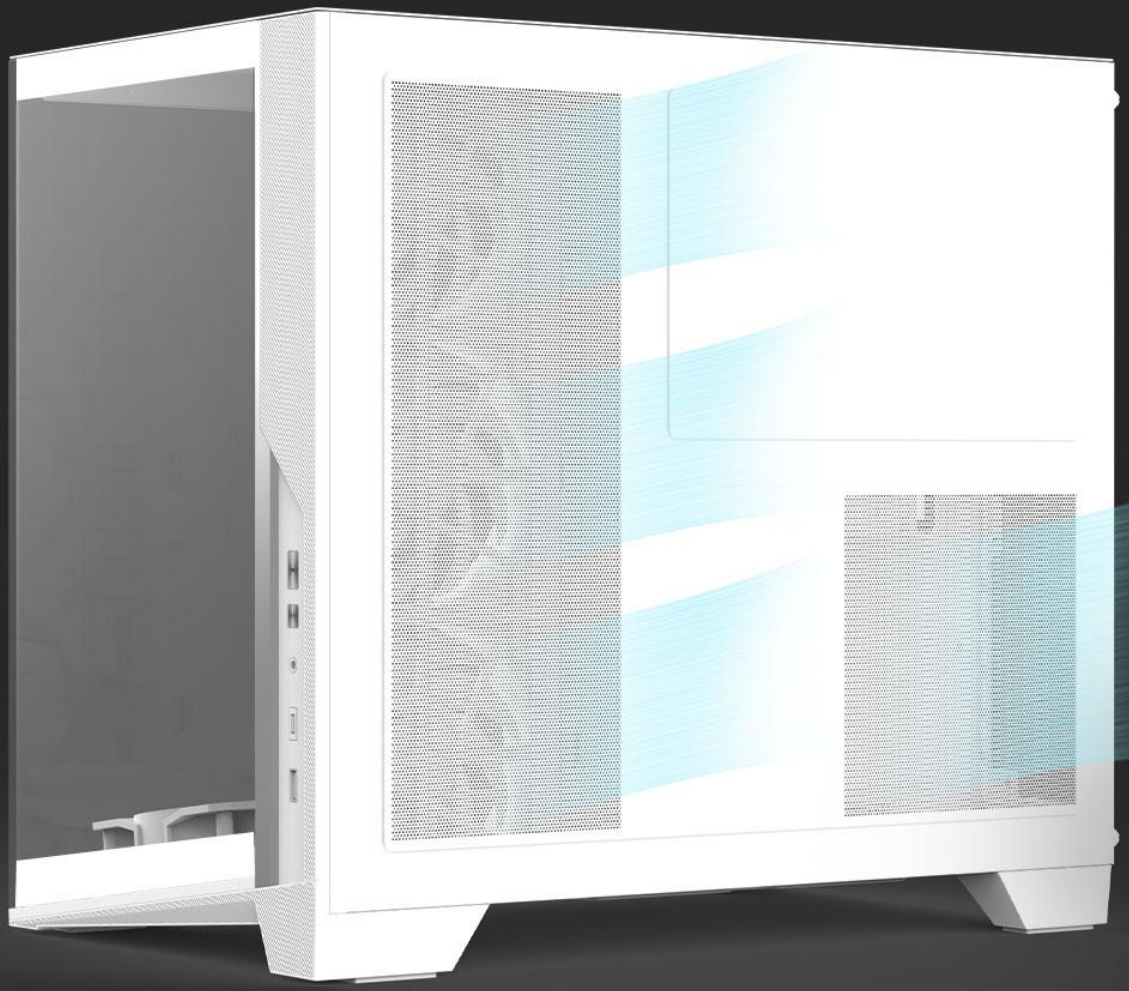
8-Degree sloped bottom design to maximize airflow

The 8-degree sloped bottom intake system optimizes incoming cold air by splitting it into two pathways.

When the GPU cooler is idle, external air—which would otherwise stall **beneath the GPU**—is divided into two channels.

One stream delivers fresh air directly to the graphics card, while the remaining airflow is guided around the GPU via the Coanda Effect before rising toward the CPU and VRM, creating a three-dimensional airflow path.

zalman

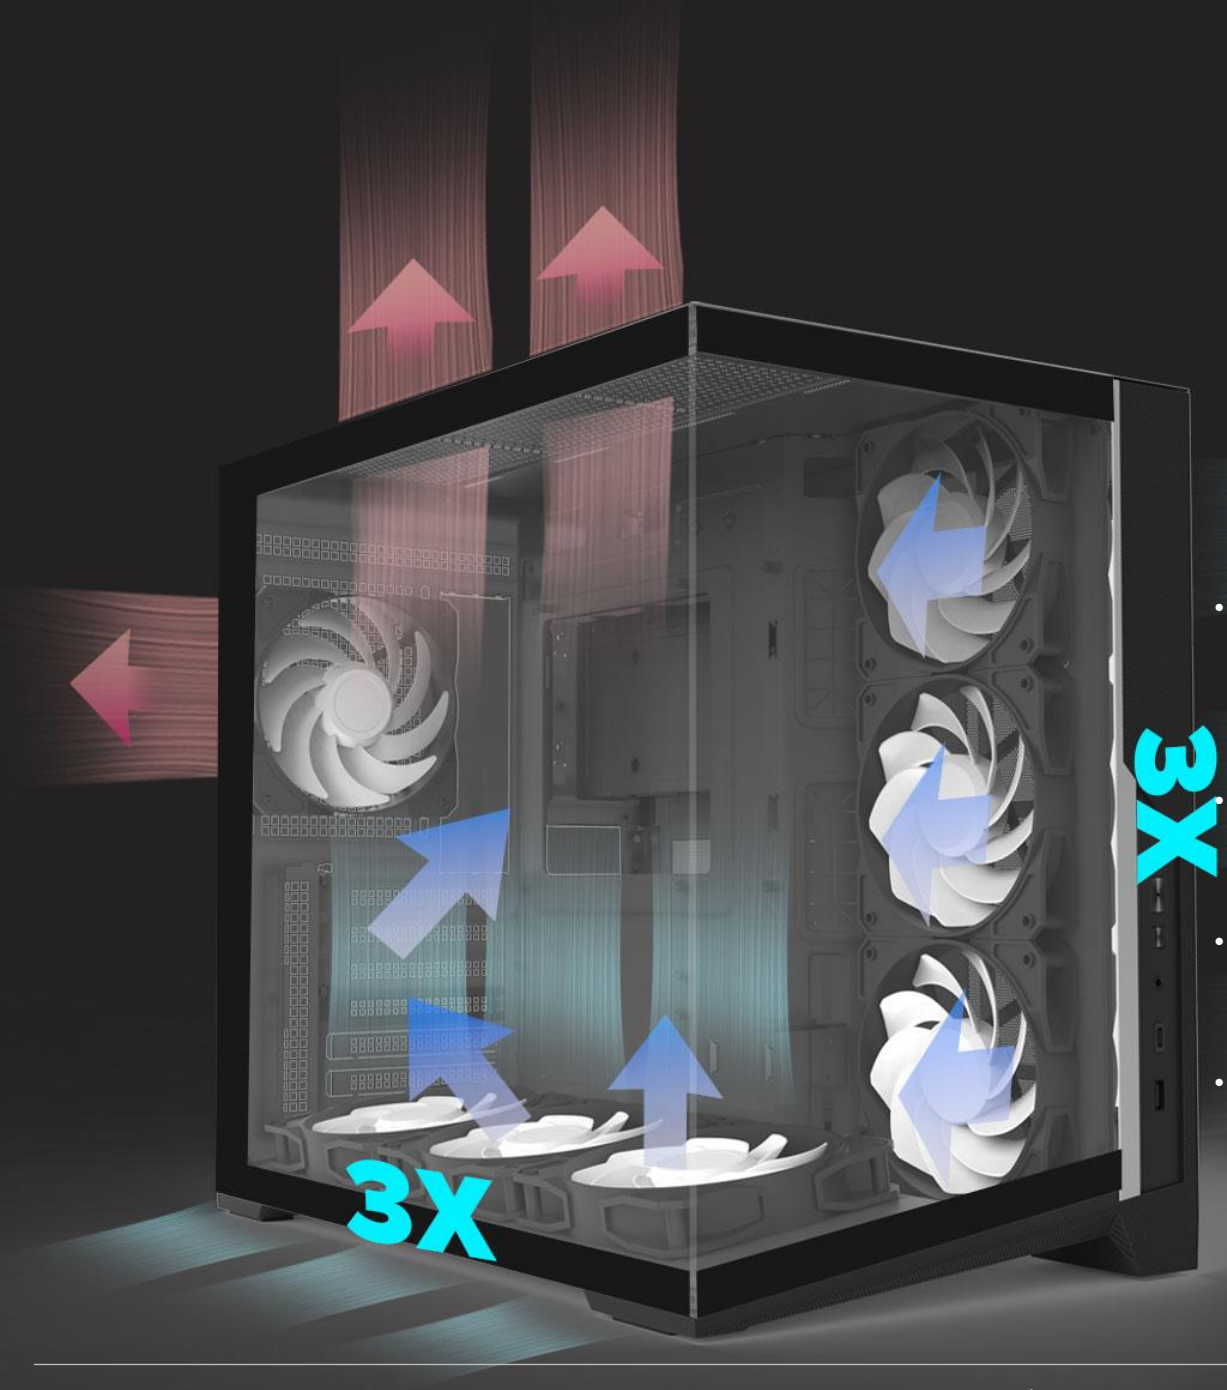


Side Air Intake for Enhanced Airflow

Optimized Side Airflow Design

Perforated side intake supports fan and PSU ventilation, while the air vent enhances smooth and efficient cooling.

zalman



Coanda Effect Bottom Intake & Surround Airflow System

- **Sloped Bottom Intake (3x ARGB Fans Pre-installed)**
  The 8-degree sloped bottom intake system optimizes incoming cold air by splitting it into two pathways.

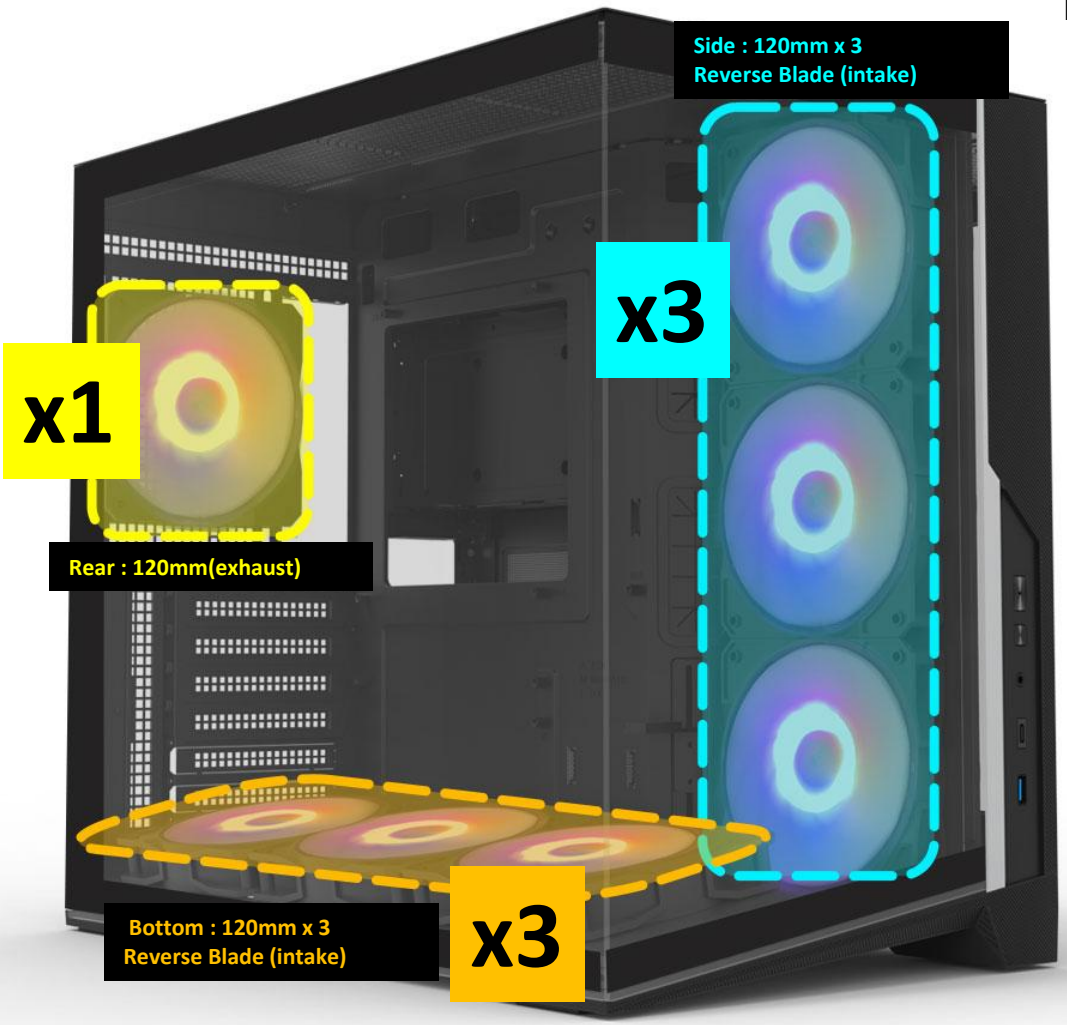
- **Side Intake (3x Reverse ARGB Fans Pre-installed)**
  Pre-installed Reverse-blade side intake fans rapidly **pull** fresh external air directly into the system.

- **Rear Exhaust (1x ARGB Fan Pre-installed)**
  Pre-installed Rear ARGB fan expels internal heat and provides seamless lighting aesthetic with motherboard sync.

- **Top Exhaust (Up to 360mm Radiator Support)**
  Equipped with top exhaust holes supporting up to a 360mm radiator, efficiently expels heat from the upper chassis.

zalman

Pre-installed 7 × ARGB Fans! Supports up to 10 Fans!



x3

Side
ARGB Reverse Fan

Model	ZS1225BESH-SLD
Voltage	12V⎓0.2A
Bearing	Hydro Bearing

x3

Bottom
ARGB Reverse Fan

Model	ZS1225BESH-SLD
Voltage	12V⎓0.2A
Bearing	Hydro Bearing

x1

Rear
ARGB Fan

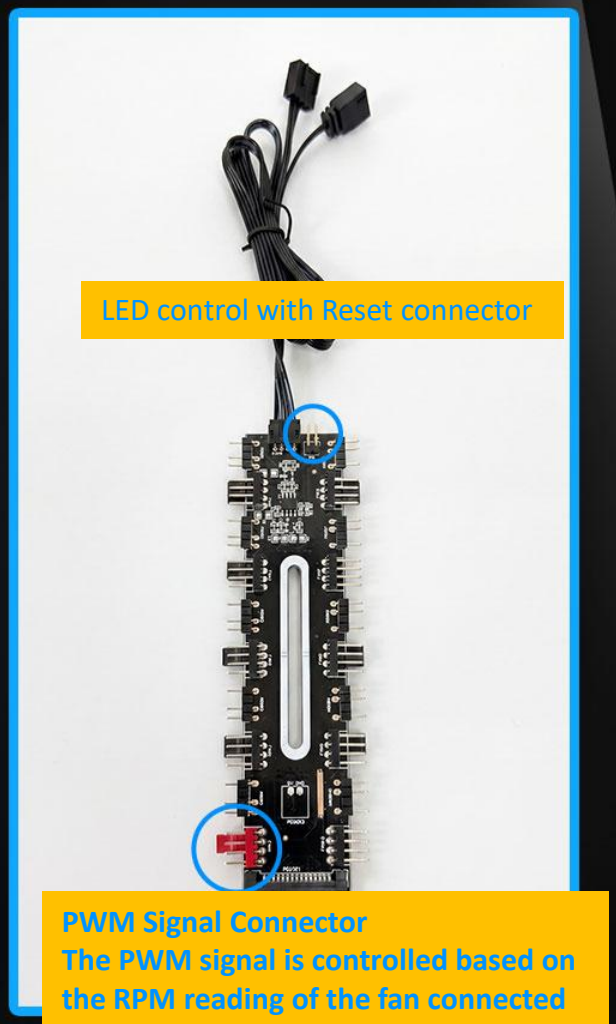
Model	ZS1225BSH-SLD
Voltage	12V⎓0.2A
Bearing	Hydro Bearing

Equipped with 7 pre-installed fans

Pre-installed Reverse-blade intakes on the side/bottom and an exhaust at the rear deliver a powerful cooling system

While providing a seamless lighting aesthetic with motherboard sync.

zalman



Comes with a PWM & ARGB Fan Hub

Managing your PWM and ARGB connectors through this all-in-one hub for convenient cable management

*How to use ARGB controller

- **Change Lighting Modes**
  Press the I/O LED (Reset) button to switch between 28 color modes and patterns.
- **Motherboard Sync**
  Press and hold the button for 3 seconds. The white LED will blink once to indicate it has synced with the motherboard.
- **LED OFF**
  Press and hold the button for 3 seconds. The white LED will blink once , and then twice after another 3 seconds to turn the LED OFF.
- **Return to Controller Mode**
  Press the button again to disconnect from motherboard sync and return to the controller's default patterns.

Support for Powerful Cooling System

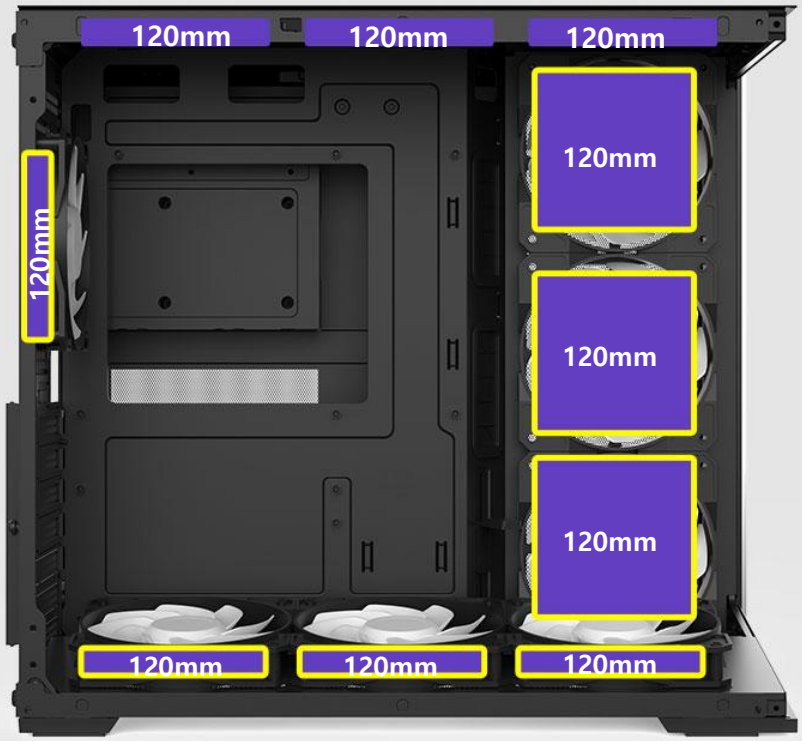
Support 360mm Radiator on Top

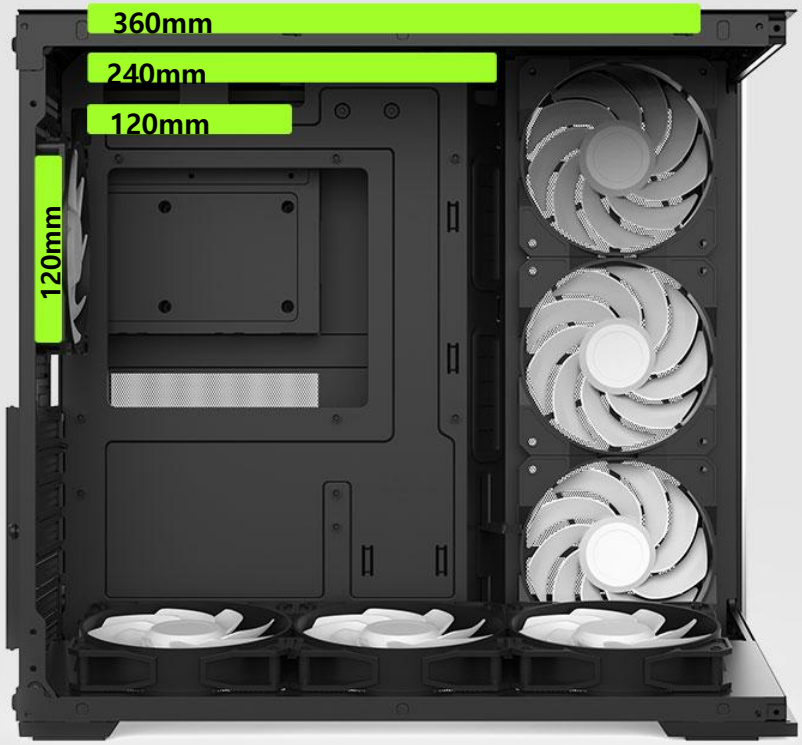
Equipped with top exhaust holes supporting up to a 360mm radiator, efficiently expels heat from the upper chassis.

Support 120mm Radiator on Rear

Supports a 120mm liquid cooler at the rear, allowing for

zalman





Support Max 10 X Fans

Pre-Installed

Side : 3 x 120mm Reverse

Bottom : 3 x 120mm Reverse

Rear : 1 x 120mm

Support

Top : 3 x 120mm

Side : 3 x 120mm

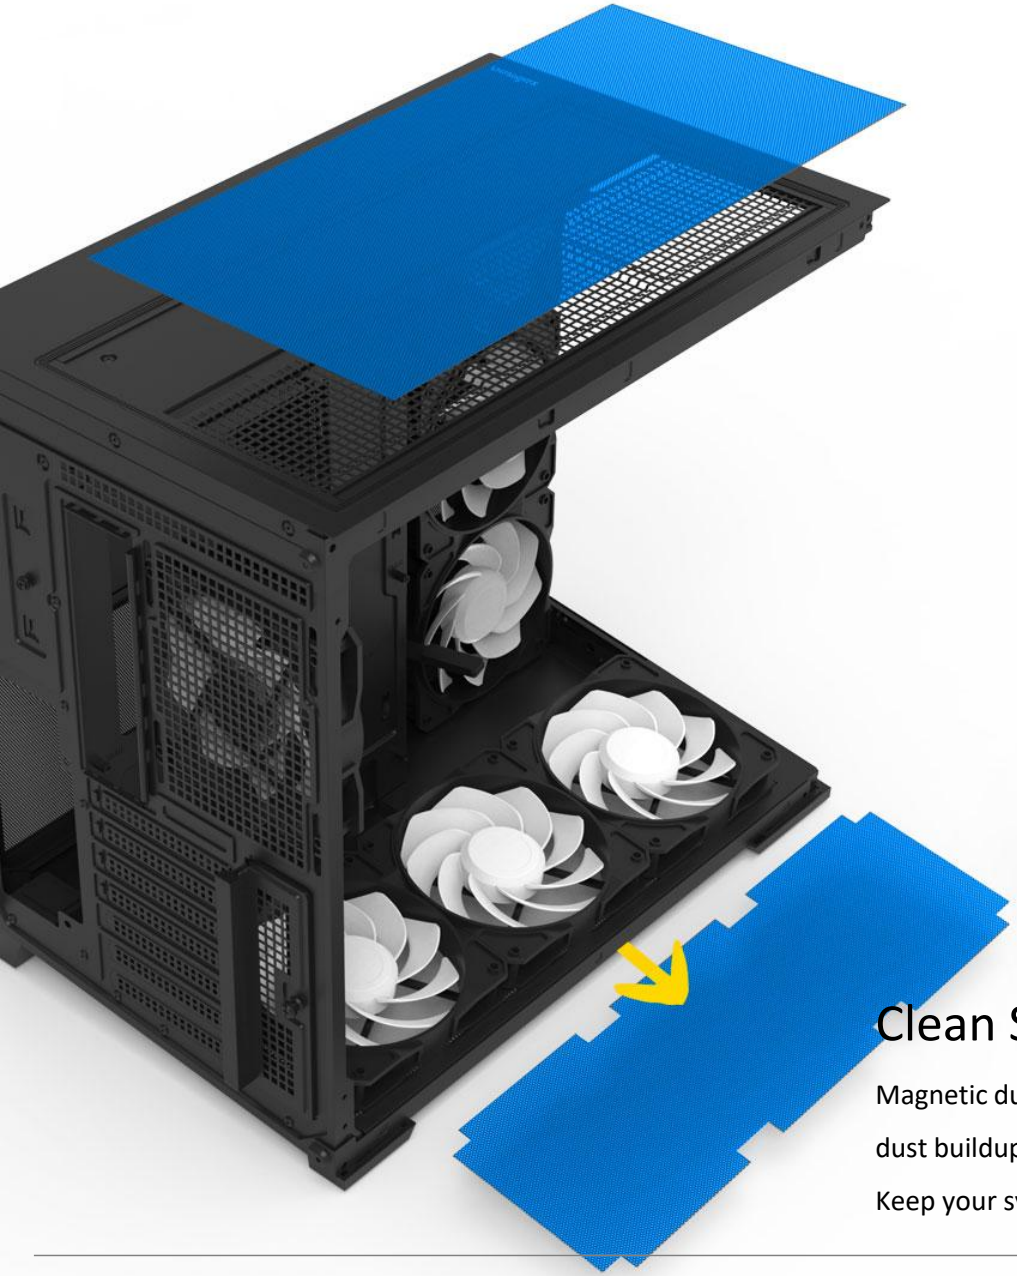
Bottom : 3 x 120mm

Rear : 1 x 120mm

Radiator Support

Top : 120mm / 240mm / 360mm

Rear : 1 x 120mm

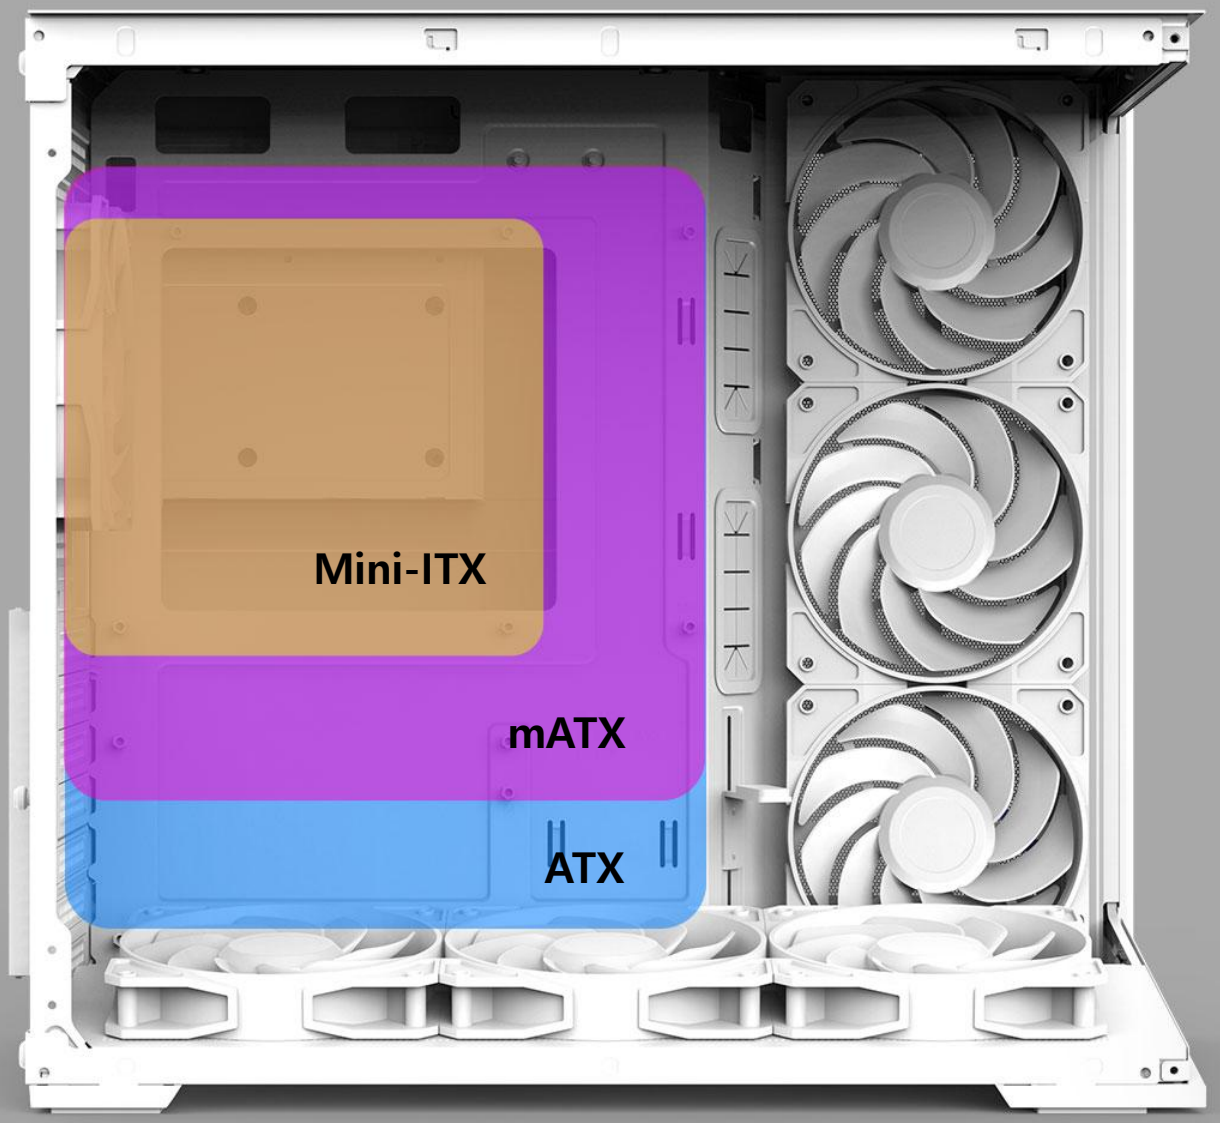


Clean System Management

Magnetic dust filters on the top, side, and bottom effectively minimize dust buildup while enabling rapid heat dissipation during operation.

Keep your system clean effortlessly with the built-in dust filter

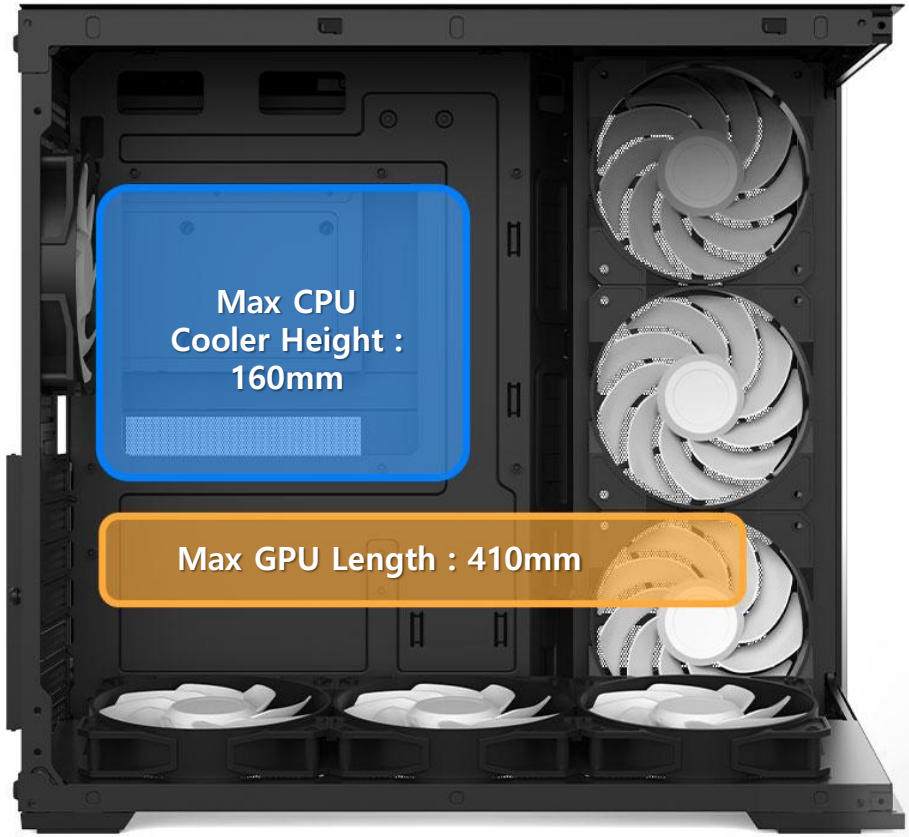
zalman



Motherboard Supports

- Mini-ITX
- mATX
- ATX

Excellent Expandability and Easy Installation



Max CPU Cooler Height

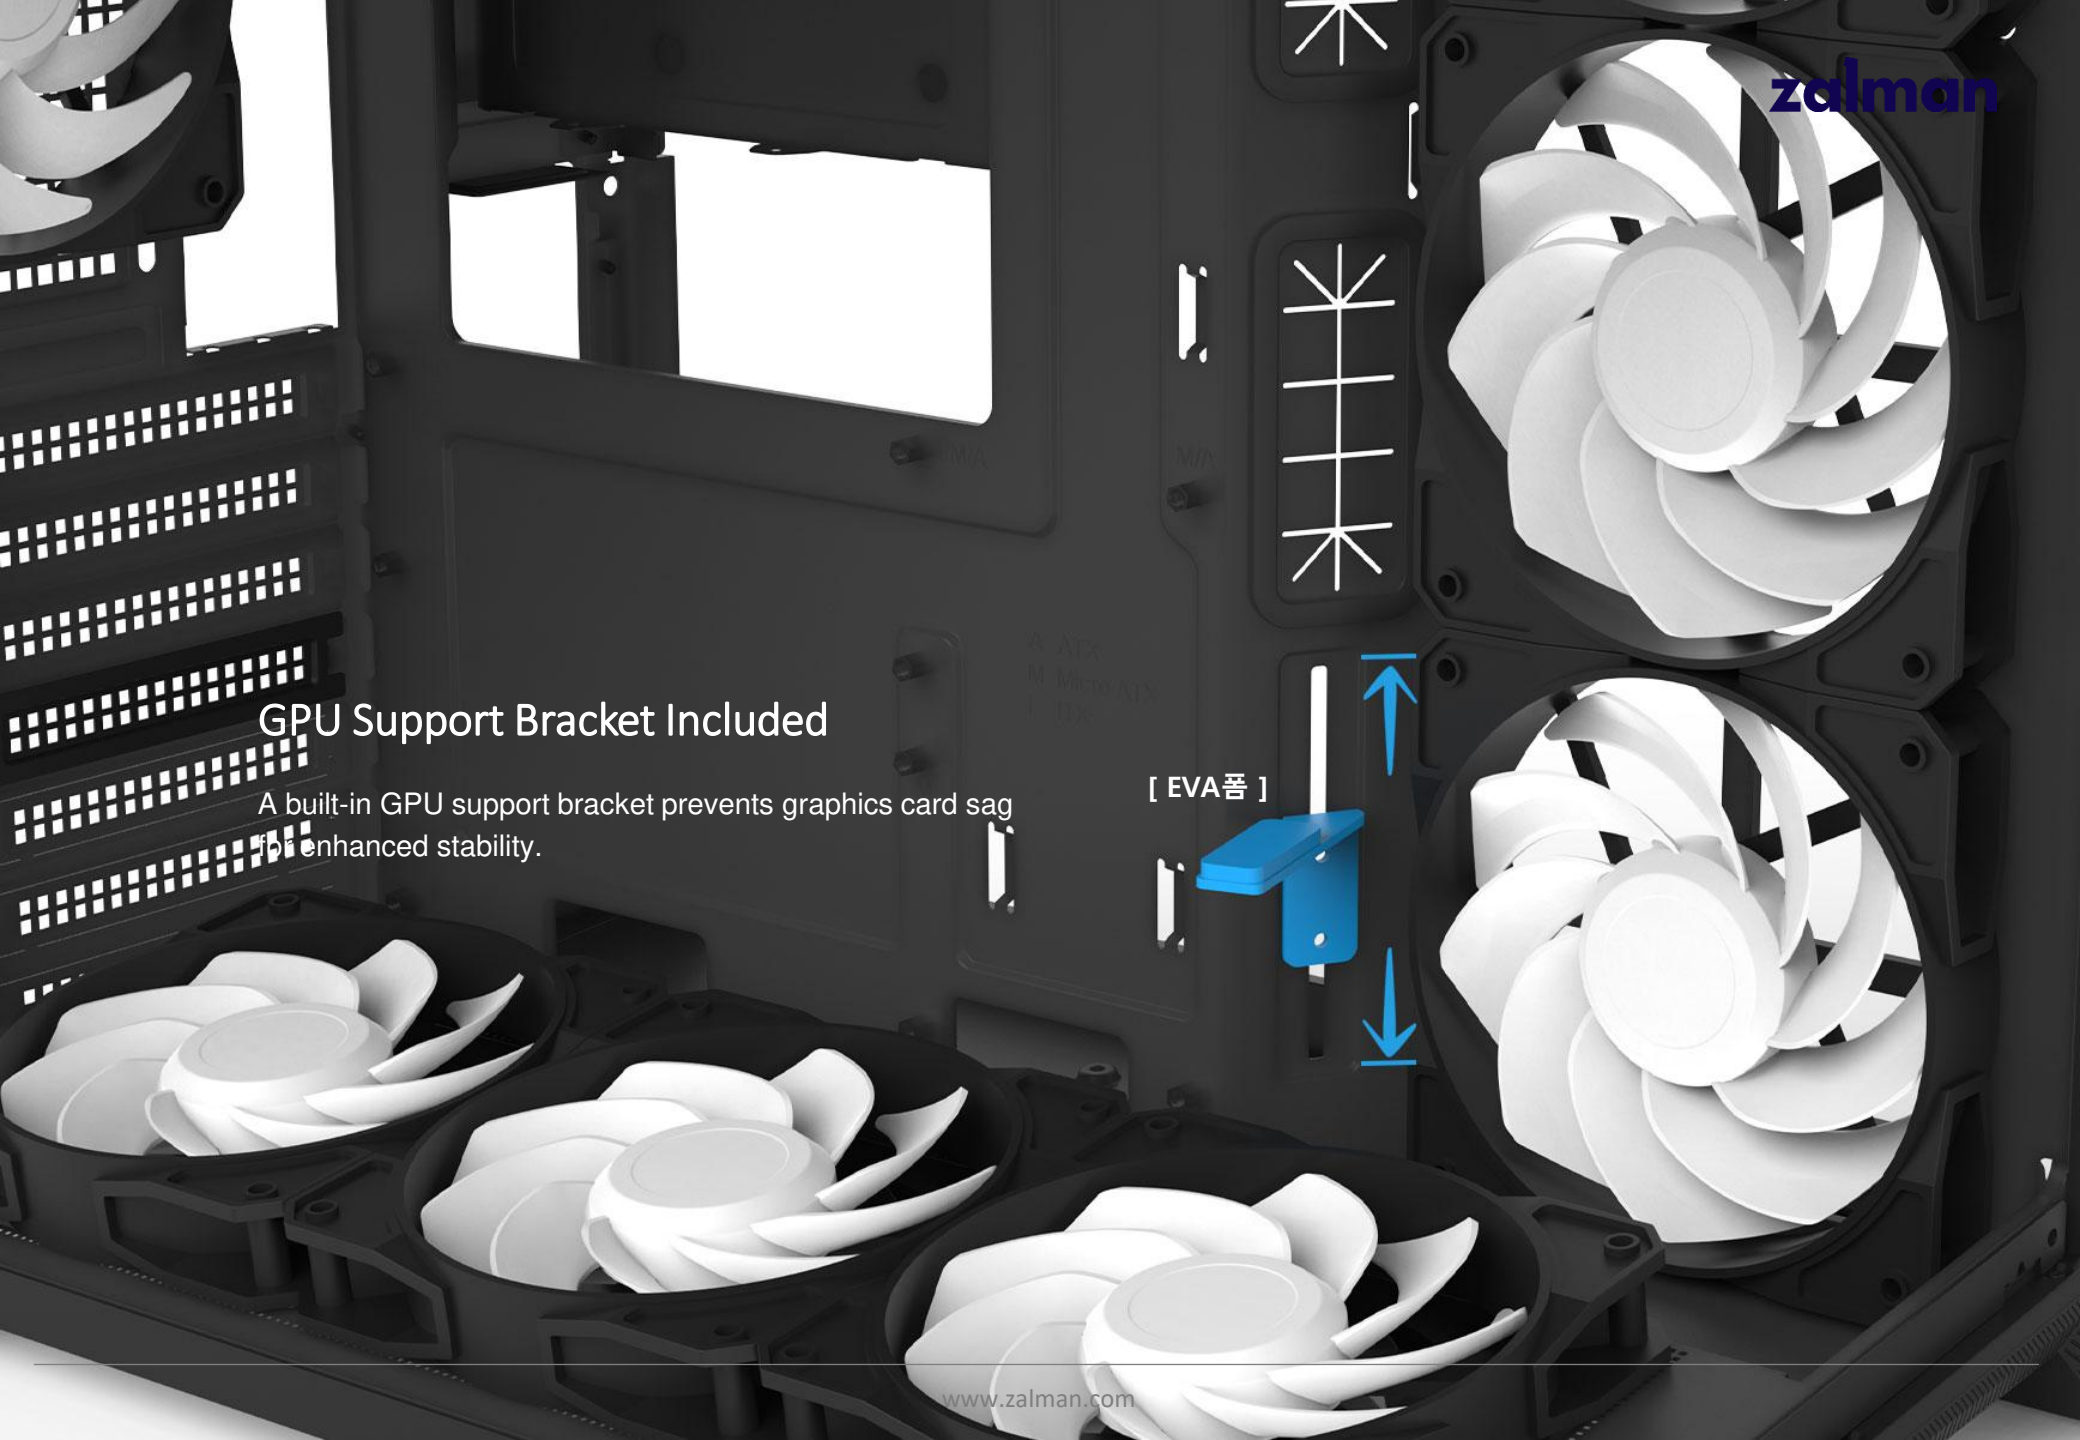
160mm

Max GPU Length

410mm

Drive bays

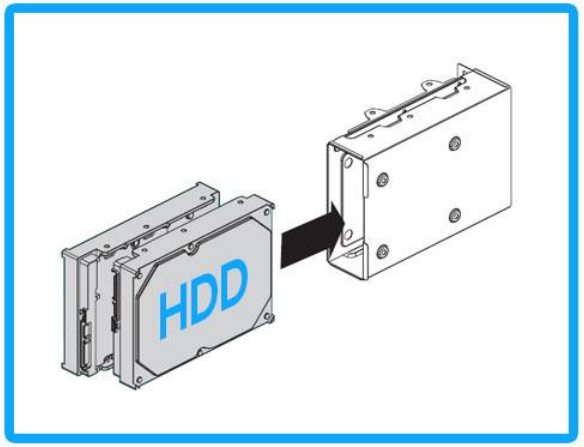
1 x Combo(2.5'' or 3.5''), 1 x 3.5''



GPU Support Bracket Included

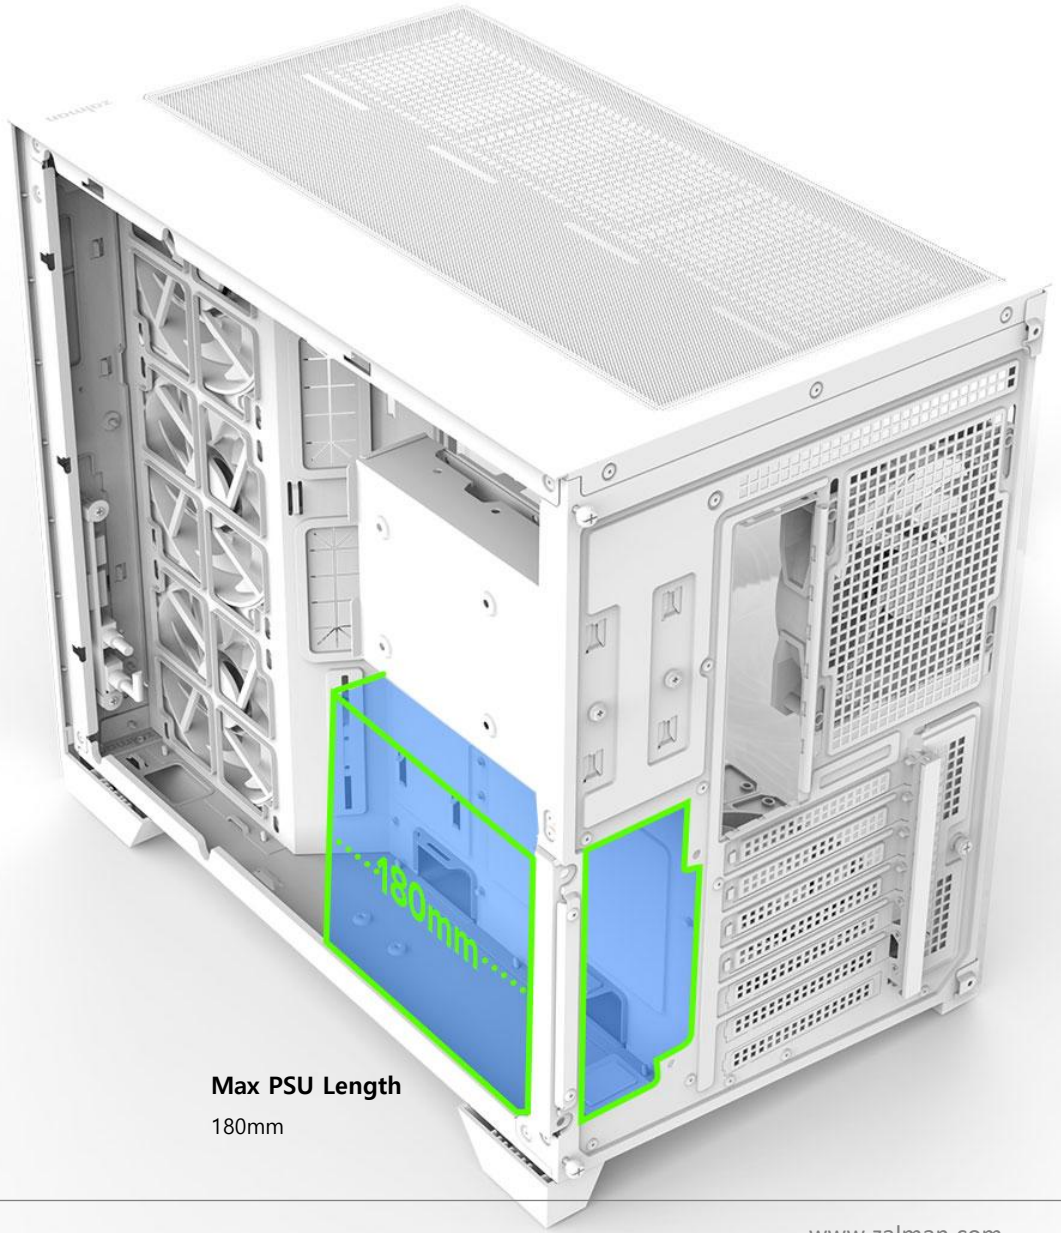
A built-in GPU support bracket prevents graphics card sag for enhanced stability.

zalman



Flexible System Configuration with Additional HDD Support

Includes an HDD cage for easy system expansion and added convenience.



Max PSU Length

180mm

Ample Installation Space for Large-Sized PSUs

Supports up to 180mm PSUs, ideal for full modular power supplies. It features an independent PSU cooling system.

zalman

Effortless Cable Management
Optimized Cable Routing Design

Strategically placed cable routing holes enable clean cable management and an optimized system interior.

Rear Design

Side Panel Screws

PSU Mounting Area

Rear 120mm Fan x 1
(Pre-Installed)

HDD Mounting Screws

Rear Mesh Panel

PCI Slot (7)

WHY BUY?

Panoramic Style with Airflow-Driven Performance

The D40 combines a stunning panoramic dual-chamber design with airflow-focused engineering for both style and performance. Its 8-degree sloped bottom intake, seven pre-installed ARGB fans, and support for up to 10 fans deliver powerful cooling right out of the box, while support for a 360 mm radiator, graphics cards up to 410 mm, USB Type-C connectivity, and a built-in GPU support bracket provide the flexibility needed for a clean and high-performance PC build.
