

48-Port Cat.6 Keystone Patch Panel - Shielded

769349

The equip® Patch Panel is a 19" 2U network distribution unit integrating cable management system for better routing and strain relief requirements, suitable for both LSA and 110 standards. Featuring 48 ports, this patch panel is recommended to connect with equip® shielded keystone jacks and cables to achieve outstanding performance. Moreover, each port is marked with port number for easy recognition.
