

Wall Network Rack Super **ECO**

19" single section cabinet with removable side panels

The perfect solution for small networks

Techly Professional presents this new rack as best solution for structured cabling in small data networks and home installations. This cabinet, thanks to its features is a **SUPER VERSATILE cabinet**:

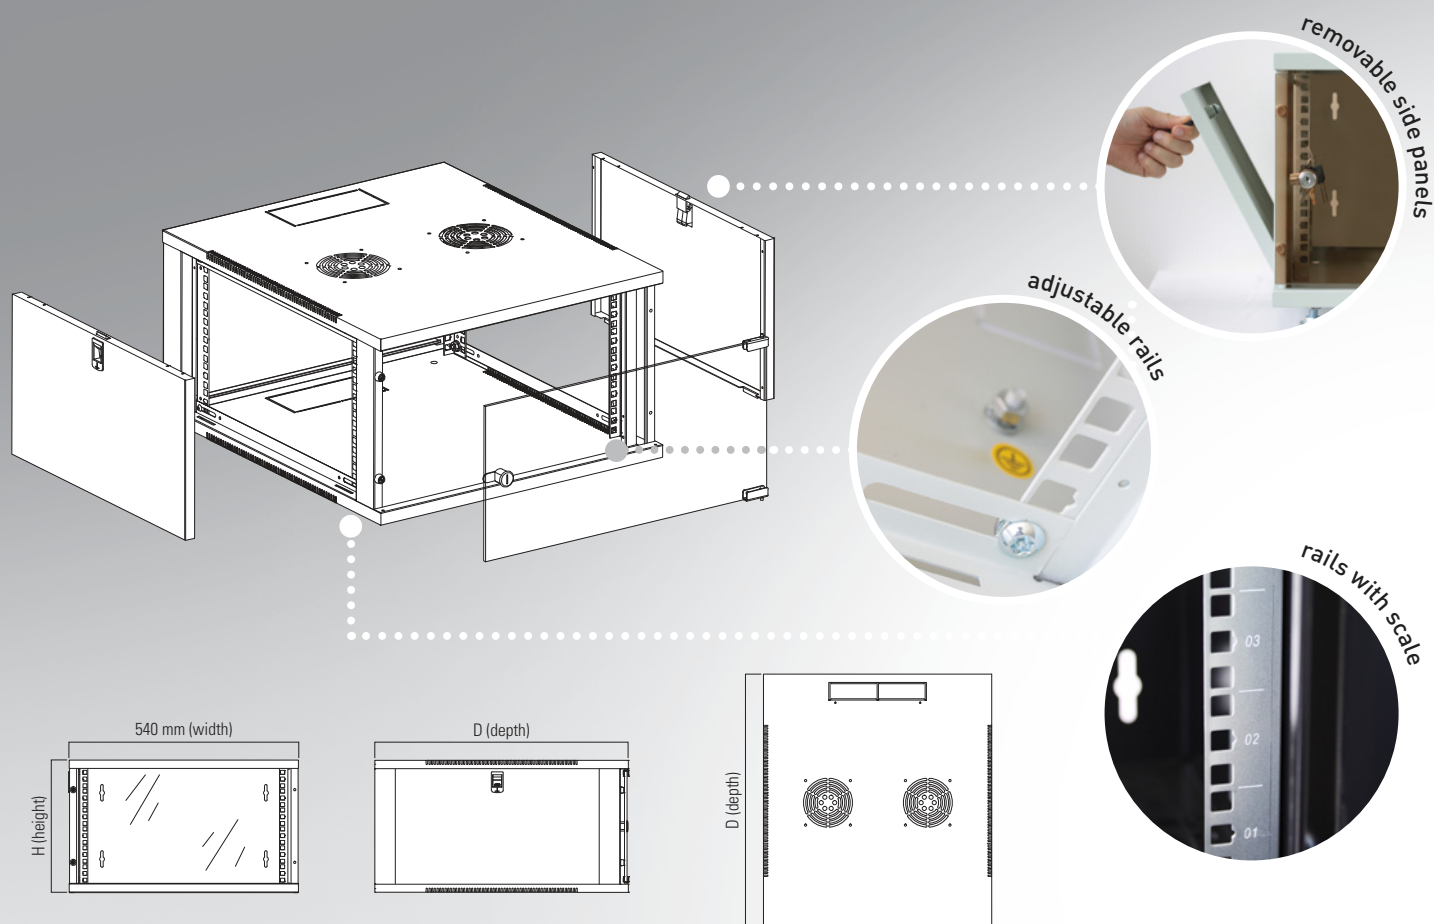

-  **Robustness:** solid structure with 1.0 mm welded cold rolled steel **ensures a static load up to 50 kg.**
-  **Effectiveness:** a reliable quality product but with a **very competitive price.**
-  **Versatility:** base and top are designed for installation of **ventilation units** and are provided with pre-cut profiles for **cable entry**. Removable side panels. Including in the front and in the rear a pair of 19" **rails** with scale.
-  **Safety:** front door and side panels provided with **key lock.**
