

EZVIZ RC3 Plus
Robot Vacuum

***Easy auto-cleaning,
plus easier auto-emptying***

When you don't feel like spending your whole Sunday cleaning up your room and picking up pet hair, the RC3 Plus is ready to quickly vacuum the right spot as you'd wish. In addition to great suction power, flexible cleaning modes and smart navigation, it also frees you from emptying the filthy dustbin for up to 90 days – the RC3 Plus works with a multi-purpose charging dock with large, automatic dust collection capability. Easy control, effective cleaning and simple maintenance, are all packaged into one RC3 Plus.

Key Features

Automatic
Dustbin Emptying
from the Robot

Up to 90 Days¹
Without Emptying
the Dock's Dust Bag

Smart Navigation &
Route Planning

Obstacle
Avoidance

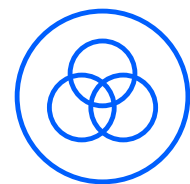

Drop-Sensing
Technology

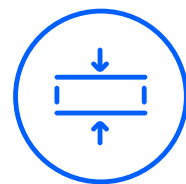

Carpet Detection

Suction Power
Up to 2700 Pa

3 Cleaning Modes

Ultra-Slim Design

Easy Control via
the Included Remote

Self-Returning &
Charging at the Dock

Low Noise
Technology

A go-to option for effortless cleaning

When you get home from an exhausting day, the last thing you want to step on is a dusty, dirty floor. No problem! Sit back on the couch and leave the dirty work to RC3 Plus.

It's also perfect for pet owners wanting to get rid of pet hair that gets everywhere — especially during shedding season.

Forget about taking out trashes, up to 90 days

No need to manually empty the robot's dustbin. The RC3 Plus works with the charging dock to automatically collect dirt and debris. The extra-large 4L dust bag on the dock holds up to 90 days of wastes.

Effectively empties the robot's dustbin with powerful suction and large dust bag

Prevents dust leaks during bag removal thanks to the self-sealing design

Leaves dirt nowhere to hide

Powerful Suction For Hard Floors

2700 Pa suction plus a rolling brush and a side brush - means the RC3 Plus is ready to sweep across even tiny corners, and effectively suck in pet dander and dust.

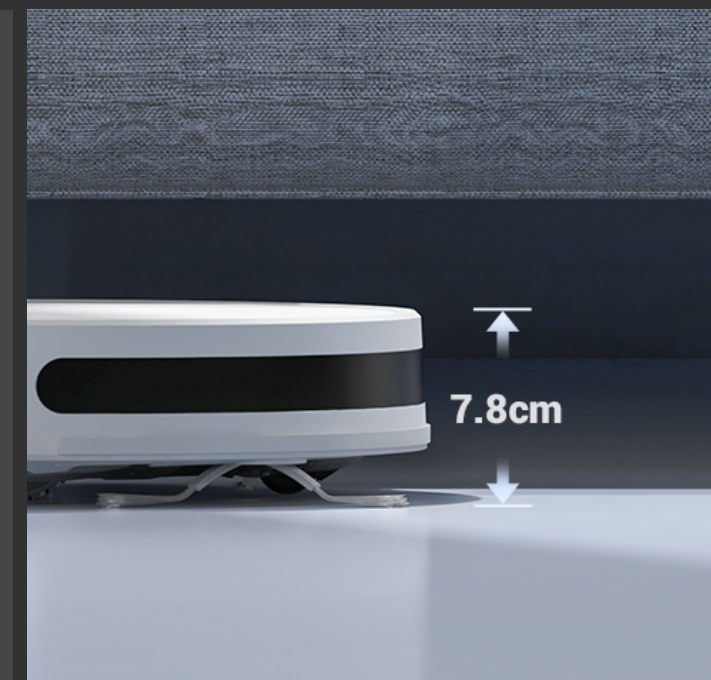

Auto Suction Boost On Carpets

After detecting a carpeted area, the robot automatically increases its suction power to vacuum up hidden dirt and hair more thoroughly.

Rarely Gets Stuck Under Furniture

With a housing that's only 7.8 cm (3 inch) high, the RC3 Plus easily glides under tight, hard-to-reach areas, so you don't need to move around couches, dressers or beds.

Versatile in cleaning missions

Set the RC3 Plus on Auto Mode when your home needs thorough vacuuming. Or, choose the other two modes when a specific area needs extra attention.

-  **Auto Mode**
Ideal for whole-room cleaning
-  **Along-the-Wall Mode**
Ideal for edge cleaning
-  **Spot Mode**
Ideal for stubborn dirt cleaning

Smart enough to stay out of troubles

To navigate smoothly across your home, the RC3 Plus avoids common obstacles – trash cans, socks, chairs – and crosses higher threshold up to 20 mm. Even if you live in a multi-floor home, the RC3 Plus stays on the right floor and prevents itself from falling down the stairs.

- Carpet Detection
- Drop-Sensing Technology
- Obstacle Avoidance
- Obstacle Crossing

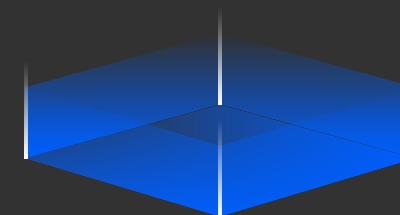

Set it on missions, with one simple remote control

All family members can enjoy operating the RC3 Plus easily with the straightforward remote control, including senior and kids.

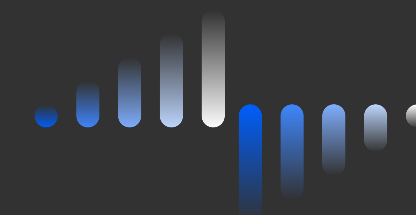

You can choose from cleaning modes, start or pause cleaning missions, guide the direction of the robot, and even set a schedule for the next mission.²

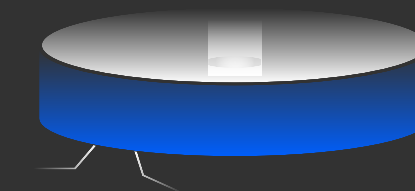

More to fit your cozy home

Extended runtime
covers up to **200 m²**
with one full charge³

low noise level
while working⁴

Soft, durable
TPE plastic
minimizes bumping
damage

Create cleaner homes on a greener earth

01 Reuse recycled materials

With sustainability in mind, EZVIZ uses recycled materials – an amount that equals about 16 plastic water bottles – on the RC3 Plus’s back plate, helping reduce plastic pollution and give used materials a second life.

02 Grow greenness with the RC3 Plus

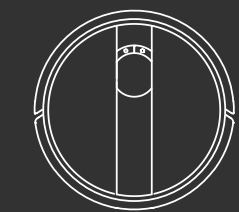

With revenues from the RC3 Plus, EZVIZ is giving back to the planet - planting trees and empowering local farms via our dedicated EZVIZ Global Forest Plan. On average, we plant two trees a day with our green partner Treedom, a global leading tree-planting platform.

⑩

- 1 Data from EZVIZ Lab test results based on the regular use of the robot. Actual emptying interval may vary depending on the use habits and environmental factors.
- 2 To successfully operate the RC3 Plus with the included remote control, please make sure that the distance between the remote control and the robot is no farther than 7 meters to ensure a stable infrared signal.
- 3 Data from EZVIZ Lab test results under standard conditions. Actual battery life may vary due to the robot's battery status, dirt level and other environmental factors.
- 4 Data from EZVIZ Lab test results under standard conditions, when the Standard Mode is enabled. Actual noise level may vary due to the robot's working modes and environmental factors.

Specifications

CS-RC3P-TWT2

Navigation

Navigation & Mapping	Gyroscope
Obstacle Avoidance	Infrared Detectors

Cleaning Features

Cleaning Features	Auto Cleaning Spot Cleaning Along-the-Wall Cleaning
Suitable Area	Up to 200 m²
Edge Detection	Supports

Vacuuming

Maximum Suction Power	2700 Pa
Motor	Brushless Motor
Carpet Detection	Supports
Main Brush Pressure Boost	Supports

Runtime

Battery Capacity	Li-ion 2600 mAh
Charging Time	5 h
Working Time	190 min (Standard Mode)

Robot

Robot Rated Power	30 W
Robot Working Voltage	14.4 V
Dust Box Capacity	0.55 L
Barrier Crossing Ability	20 mm
Dust Box Detection	Supports
Noise Level (dB (A))	64 (Standard Mode) 74 (Max Mode)
Control Methods	Controlled by the included remote

Robot Accessories

Dust Box Filter	Filter Net + High Efficiency Filter
Filter Level	E10
Main Brush Type	Floating Main Brush
Main Brush Material	Rubber + Bristle

Accessories Service Life

Robot Part	Side Brush	High-performance Filter	Main Brush
Maintenance Frequency	2 Week	1 Week	1 Week
Replacement Frequency	6-12 Month	3-6 Month	6-12 Month

Specifications
