Power Generator (Petrol)

TC-IG 1100

Item No.: 4152580

Ident No.: 11019

Bar Code: 4006825651089

The TC-IG 1100 generator (petrol) is ideal wherever electricity needs to be generated independently of the mains supply. Electricity is supplied via a standard 230 V / 50 Hz socket to which all devices can be connected. The generator is driven by a powerful, rugged and low-emission 4-stroke motor. Thanks to the inverter technology used, this generator produces power without voltage peaks, which means that even sensitive equipment can be connected to it. As additional protection for the generator and any connected equipment there is also an overload cut-out and a low-oil cut-out. This generator comes with a support frame for protection as well as easy transportation. Starting the generator is simplicity itself using the actuator cable.
