Article text

The Alphacool ES 19" Open Frame Server Rack with customizable depth is a mobile and modular solution for server systems. It is made of sturdy steel and offers a reliable load-bearing capacity for server units. The rack can be moved effortlessly thanks to the included casters. Four height-adjustable feet are included for stationary mounting. Mounting on a base plate is also possible.

Modular

The Alphacool ES 19" Open Frame server rack is available in different sizes: 12U, 15U, 18U and 25U. Regardless of the height, the server rack can be adjusted in depth from 59-104cm (23 - 40.9 inches). The pre-set mounting holes allow easy installation of each rack unit. With the help of the 360° rotating casters, the Open Frame server rack can be moved effortlessly.

Reliable stability

The Open Frame server rack from Alphacool stands for durability and offers a load capacity of up to 600 kg with the stable adjustable feet. The high-quality casters are designed for a weight capacity of up to 300 kg. Alternatively, the server rack can be securely mounted on a base plate through the pre-drilled holes. In addition, the rack complies with the EIA/ECA-310 standard, which ensures a universal design and ensures compatibility with most network rack devices.
