ICY BOX **IB-2817MCL-C31**
Enclosure with cloning function for M.2 NVMe SSDs

Bit by bit and byte by byte

Secure cloning of bootable media or entire drive backups are no problem with this external CloneStation. You can quickly and easily create bit-precise clones of an M.2 SSD at the touch of a button. The status LEDs show the current progress at all times.

Safely stored with optimal temperature management

The housing is made of high-quality aluminium. This not only ensures a first-class appearance, it also results in an efficient heat dissipation. SSDs stay cool even during demanding tasks thanks to direct contact with heat conduction pads attached to the lid.

Space for two M.2 NVMe SSDs in one enclosure

Expand your external storage capacity twice over. Because there is room for two M.2 NVMe SSDs in the enclosure. Experience lightning-fast data transfers via USB 3.2 Gen 2 at up to 10 Gbit/s.
