EN TECHNICAL SPECIFICATION

Rated voltage:	230 V~, 50 Hz
Max load:	3680 W
Max current:	16 A
Accuracy:	+/- 1 minute per month
ON / OFF programs:	10
Battery:	Ni-MH 1.2V > 100 days reserve time
Socket standard:	CEE 7/5 (E)
Plug standard:	CEE 7/7 (E/F)
Working temperatures:	-10°C — 45°C
Size:	61 × 76 × 135 mm
Weight:	165 g

The AE-03 timer will help you optimize energy consumption in your home. The timer function allows you to plan the work schedule of electrical devices, thus reducing the operating costs of your household. The operating mode in the 12/24 hour system and the ability to set the random on/off switching of the connected device when you are away from home allows you to flexibly adjust its operation to your preferences. The timer allows you to set up to 10 different operating programs at the same time, to make it even easier to optimize your electricity expenses.
