HP Twin Lift FW-B

Item no.: 8251

height adjustable lift system for floor-to-wall installation

The HP Twin Lift FW-B is a height adjustable lift system for floor-to-wall installation. It is suitable for screens from 55“ up to 86“ | 140 - 218 cm.

The screen can be mounted in landscape or portrait orientation, just as required. For portrait mounting, please note the screen size. The VESA mount covers the VESA standard up to max. 900 x 600 mm.

The height of the screen can be adjusted electro-motorically with a wired remote control. The stroke of 980 mm allows the screen height to be optimally adjusted for standing and seated viewers.

The lift system also features collision protection, which immediately stops the movement of the screen as soon as resistance is encountered.

Thanks to the floor-to-wall installation the system requires low space. The footprint is W 1000 x D 289 mm.

The HP Twin Lift FW-B has an integrated media cabinet, which is lockable and reliably protects the AV equipment stored there from unauthorised access.

Thanks to the maximum load of 120 kg, the lift system is also suitable for large, heavy screens.

Cable management is neatly organised via a flexible cable drag chain.

A height-adjustable camera holder is already included in the scope of delivery and can be used as an option.

The HP Twin Lift - Laptop Holder Black | Item no.: 8913 is available as an optional accessory.
