Efficient and gentle low pressure

- The advantage of low pressure: efficient and at the same time very gentle cleaning, ideal for sensitive surfaces.
- The standard nozzle with flat jet cleans even hard-to-reach places reliably and precisely. The cone-spray nozzle is suitable for even more sensitive cleaning, for example of dog paws.

Innovative, foldable tank

- Large capacity (8 l) of the flexible water tank, which can be folded to a minimum pack size for easy transport and space-saving storage.
- Reduced space requirement: the hose and trigger gun are stowed in the compactly folded device.

Integrated lithium-ion battery

- Mobile cleaning at any time without a power connection.
- Long battery run time for repeated use, without intermediate charging. The LED display signals when the battery needs to be charged.
- The USB type C charging socket on the device enables flexible charging even when on the move, e.g. in the car or at the powerbank.
