

## sportpods ocean

The sustainably made true wireless earbuds

But how is this possible? I mean, this was plastic waste!

Yes. But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

### In the Box

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected, this can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

### How to Connect

Note: once you have followed this procedure, the next time you remove from charging case earbuds will connect to your phone automatically.

Once connected LED will flash Blue slowley

### Touch Controls

Your earbuds come pre-set as below but you can customise to how you want through the boompods APP  
If not connected earbuds will power down after 5 mins

### Charging

Once the earbuds are placed inside the case, the left and right charging indicators will light up to indicate that they are charging. Once fully charged, these indicators will show a fully lit status, like below:

### Charging buds

OR  
check Buds battery status at any time you can open the Boompods App.

### Charging case

Reset

In the unlikely case of any pairing problem  
Place earbuds into charging case and go to the Boompods App and select Reset.

Further enhance your experience by downloading the Boompods App.

Download on the  
App Store

ANDROID APP ON  
Google play
