InLine® USB 2.0 Active Extension / Repeater Cable USB A male to female 15m

* Preise inkl. gesetzlicher MwSt. zzgl.Versandkosten

Marke: INL
Bestell-Nr.: 34612I

The active USB 2.0 extension amplifies the signal active like a hub. This provides an extension of the USB-cable according to the USB-specification. No external power supply required. The maximum extension depends on the power supply of the USB-device. No drivers are needed in Windows.

- USB 2.0 extension
- transmission rates up to 480Mbit/s
- active without external power supply
- No drivers needed in Windows
