

FE45 GRANCOTTO 45

Electric oven with convection

DESCRIPTION

Grancotto 45 is an electric oven equipped with a 45L cooking compartment which is wide enough for 40 cm diameter plates and to cook multiple dishes at the same time. Internal walls are enameled, cleaning them is really simple! Temperature can be adjusted from 40 up to 280°C so you can easily bake any dish from appetizers to desserts and choose among five cooking functions that, combined with heat convection, give food uniform browning and crispness. Grancotto is provided with a 90-minute timer with acoustic signal and inner light allowing you to check cooking. The package includes a grid, a rectangular tray and a 37 cm round tray which is perfect for homemade pizza, cakes and pies.
