EN TECHNICAL SPECIFICATION

Power supply:	3.7 V 1200 mAh Li-ion battery
Power:	5 W
Fan operation modes:	1. 25% of max power 2. 60% of max power 3. 100% of max power 4. Alternate mode 25 - 60% of max power
Fan angle adjustment:	360°
Working time:	Up to 4 h (depending on operation mode)
Operating voltage:	5 V via the USB connector
Charging port:	USB-C
USB cable length:	0.8 m
Max. noise level:	36 dBA
Material:	ABS, PP
Measurements:	160 × 150 × 115 mm
Weight:	278 g

USB desk fan AD-01 is a device that is characterized by efficiency, quality, and effectiveness of operation. It brilliantly distributes air in the room, translating into greater summer comfort. Equipped with LED that indicates the level of battery charge, it has 4-speed modes that allow you to adjust the intensity of airflow. Thanks to its design and 360-degree vertical rotation, it allows you to choose the angle of blowing and adjust it to your personal preferences. A USB cable is included to charge the device. The operating time on a single charge is up to 4 hours. The product is extremely quiet, which makes it perfect for everyday use as a desk fan.
