Backpack Hi-Vis Base 24 litre orange

Maximum outdoor visibility and work safety

The Backpack Hi-Vis Base guarantees excellent visibility at night or in the rain, while providing plenty of space for your daily essentials. Its ISO certified fluorescent color and reflective stripes ensure optimum visibility when cycling, commuting or working in traffic!

Designed for maximum simplicity, safety and functionality, this backpack is a reliable solution for outdoor situations where increased visibility is required. The backpack features reflective stripes, and the main fabric comes in fluorescent colours made from recycled PET bottles to protect both the owner and the environment. The Hi-Vis fabric and 3M reflective stripes are certified to European standard EN ISO 20471:2013 and provide great visibility, improving safety when operating near traffic, railways, or construction sites.

The 24-litre capacity efficiently stores both work and personal items. The main compartment offers plenty of room for a lunch box, clothes or documents, while a high-density foam padded section keeps your laptop or tablet safe. The front compartment can hold your smartphone, power supply, keys and other accessories. Valuables can be safely stored in the rear compartment to prevent theft. A discreet Velcro area allows you to personalise the backpack with a logo or name patch.

Offering maximum space, comfort and visibility, the Backpack Hi-Vis Base 24 litre is perfect for a busy day outdoors and helps to prevent accidents.
