## WIRELESS GAMING AT THE SPEED OF ULTRA-LIGHT.

The HyperX Pulsefire Haste 2 Mini Wireless is a precise mouse for gamers who want an ultra-light mouse with wireless freedom but want all that in a compact form factor that weighs less than 60[1] grams. This mighty miniature mouse is 16% smaller than the Pulsefire Haste 2 Wireless but contains the same HyperX suite of high-performance custom components. It features dual mode wireless connectivity, allowing you to switch between 2.4GHz wireless and Bluetooth connections, and a USB-C to USB-A cable so you can charge while using the mouse in wired mode. The immaculate HyperX 26K Sensor delivers native DPI detection of up to 26,000 with a tracking speed of up to 650 IPS. Our custom HyperX Switches provide tactile, audible feedback on each satisfying click, and are rated for a lifespan of up to 100 million clicks. You'll also enjoy superior physical control of your mouse with smooth, low-friction skates, and the included grip tape. Get the most out of every mouse movement with HyperX NGENUITY Software which lets you create macros for the 6 programmable buttons, customize your DPI settings, and personalize the RGB lighting[2].
