BrackIT® S-II

Full motion wall mount

Item no.: 8427

The BrackIT® S-II is a full motion wall mount for a screen with a size from 32“ up to 43“ (81 - 109 cm).

The VESA mount covers the universal VESA standards 100 x 100 mm and 200 x 200 mm and allows the screen to be mounted either in landscape or portrait orientation. The current very popular hole pattern VESA 200 x 100 mm and 100 x 200 mm is also covered by the bracket.

The screen tilt can be adjusted between -5° and +12° during installation.

The wall distance can be adjusted between a minimum of 64 mm and a maximum of 342 mm thanks to the swivel joint.

In addition, the holder can be swiveled by ± 90°. The exact angle depends on the width of the mounted screen.

The cabling is held together by a cable clip.

The maximum load capacity is 25 kg.

The surfaces are protected by a solvent free, impact and scratch resistant powder coating in black.
