

AXIS TP3301-E Pole Mount Black

Pole mount for fixed dome cameras

The outdoor-ready AXIS TP3301-E Pole Mount Black has a 1.5" NPS threading for a wide range of Axis pendant kits for Axis fixed dome and panoramic cameras. Thanks to its impact-resistant and outdoor-proven material, the mount can be used in both indoor and outdoor environments. AXIS TP3301-E is intended for poles with a diameter between 65–165 mm (2 1/2–6 1/2 in), and also for beams. It features 3/4" conduit side entries for protected cable runs, and a closed back with cable gasket for protection against insect infestation. The pole mount is tightened with two marine-grade (SS316L) stainless steel straps with TX30 screw interface for ease and secure installation.
