

CAR VIDEO RECORDER DVR10

The Canyon DVR-10 is the ultimate on-road companion: this dash cam is designed to last. Equipped with a Sony Starvis 307 sensor, it captures clear footage even in low-light conditions, while the 140° field of view ensures comprehensive coverage.

The dash cam comes with a magnetic holder for easy installation and utilizes a reliable supercapacitor for safe and stable operation. A WiFi connection and a multi-language app enable you to manage the dash cam straight from your smartphone. Plus, the 3-inch touch screen is always at your disposal – it offers intuitive device control at your fingertips.

You're going to like the Italian design with the glossy frontal part – this dash cam is elegant and won't stick out in the interior of your car.

Invest in this advanced device today and enjoy enhanced safety, convenience, and peace of mind every time you hit the road.

HIGH QUALITY VIDEO

This dashcam is equipped with the Sony Starvis 307 sensor, and you can trust it even in challenging lighting situations thanks to its Night Vision mode. The camera will capture crucial details accurately in FullHD 1080p resolution at 30 frames per second. The broad 140° field-of-view ensures that you have an extensive view of your surroundings, enabling a comprehensive recording of events as they unfold.

G-SENSOR FOR ACCIDENT RECORDING

When the shock sensor (G-sensor) is activated, the video of the accident will be automatically saved in a separate folder and will be protected from overwrite. With this video recorder you can always be sure that you have a video of what has happened!

EXCEPTIONAL ITALIAN DESIGN

Meticulously designed in Italy with attention to detail, this elegant device complements the interior of any vehicle.

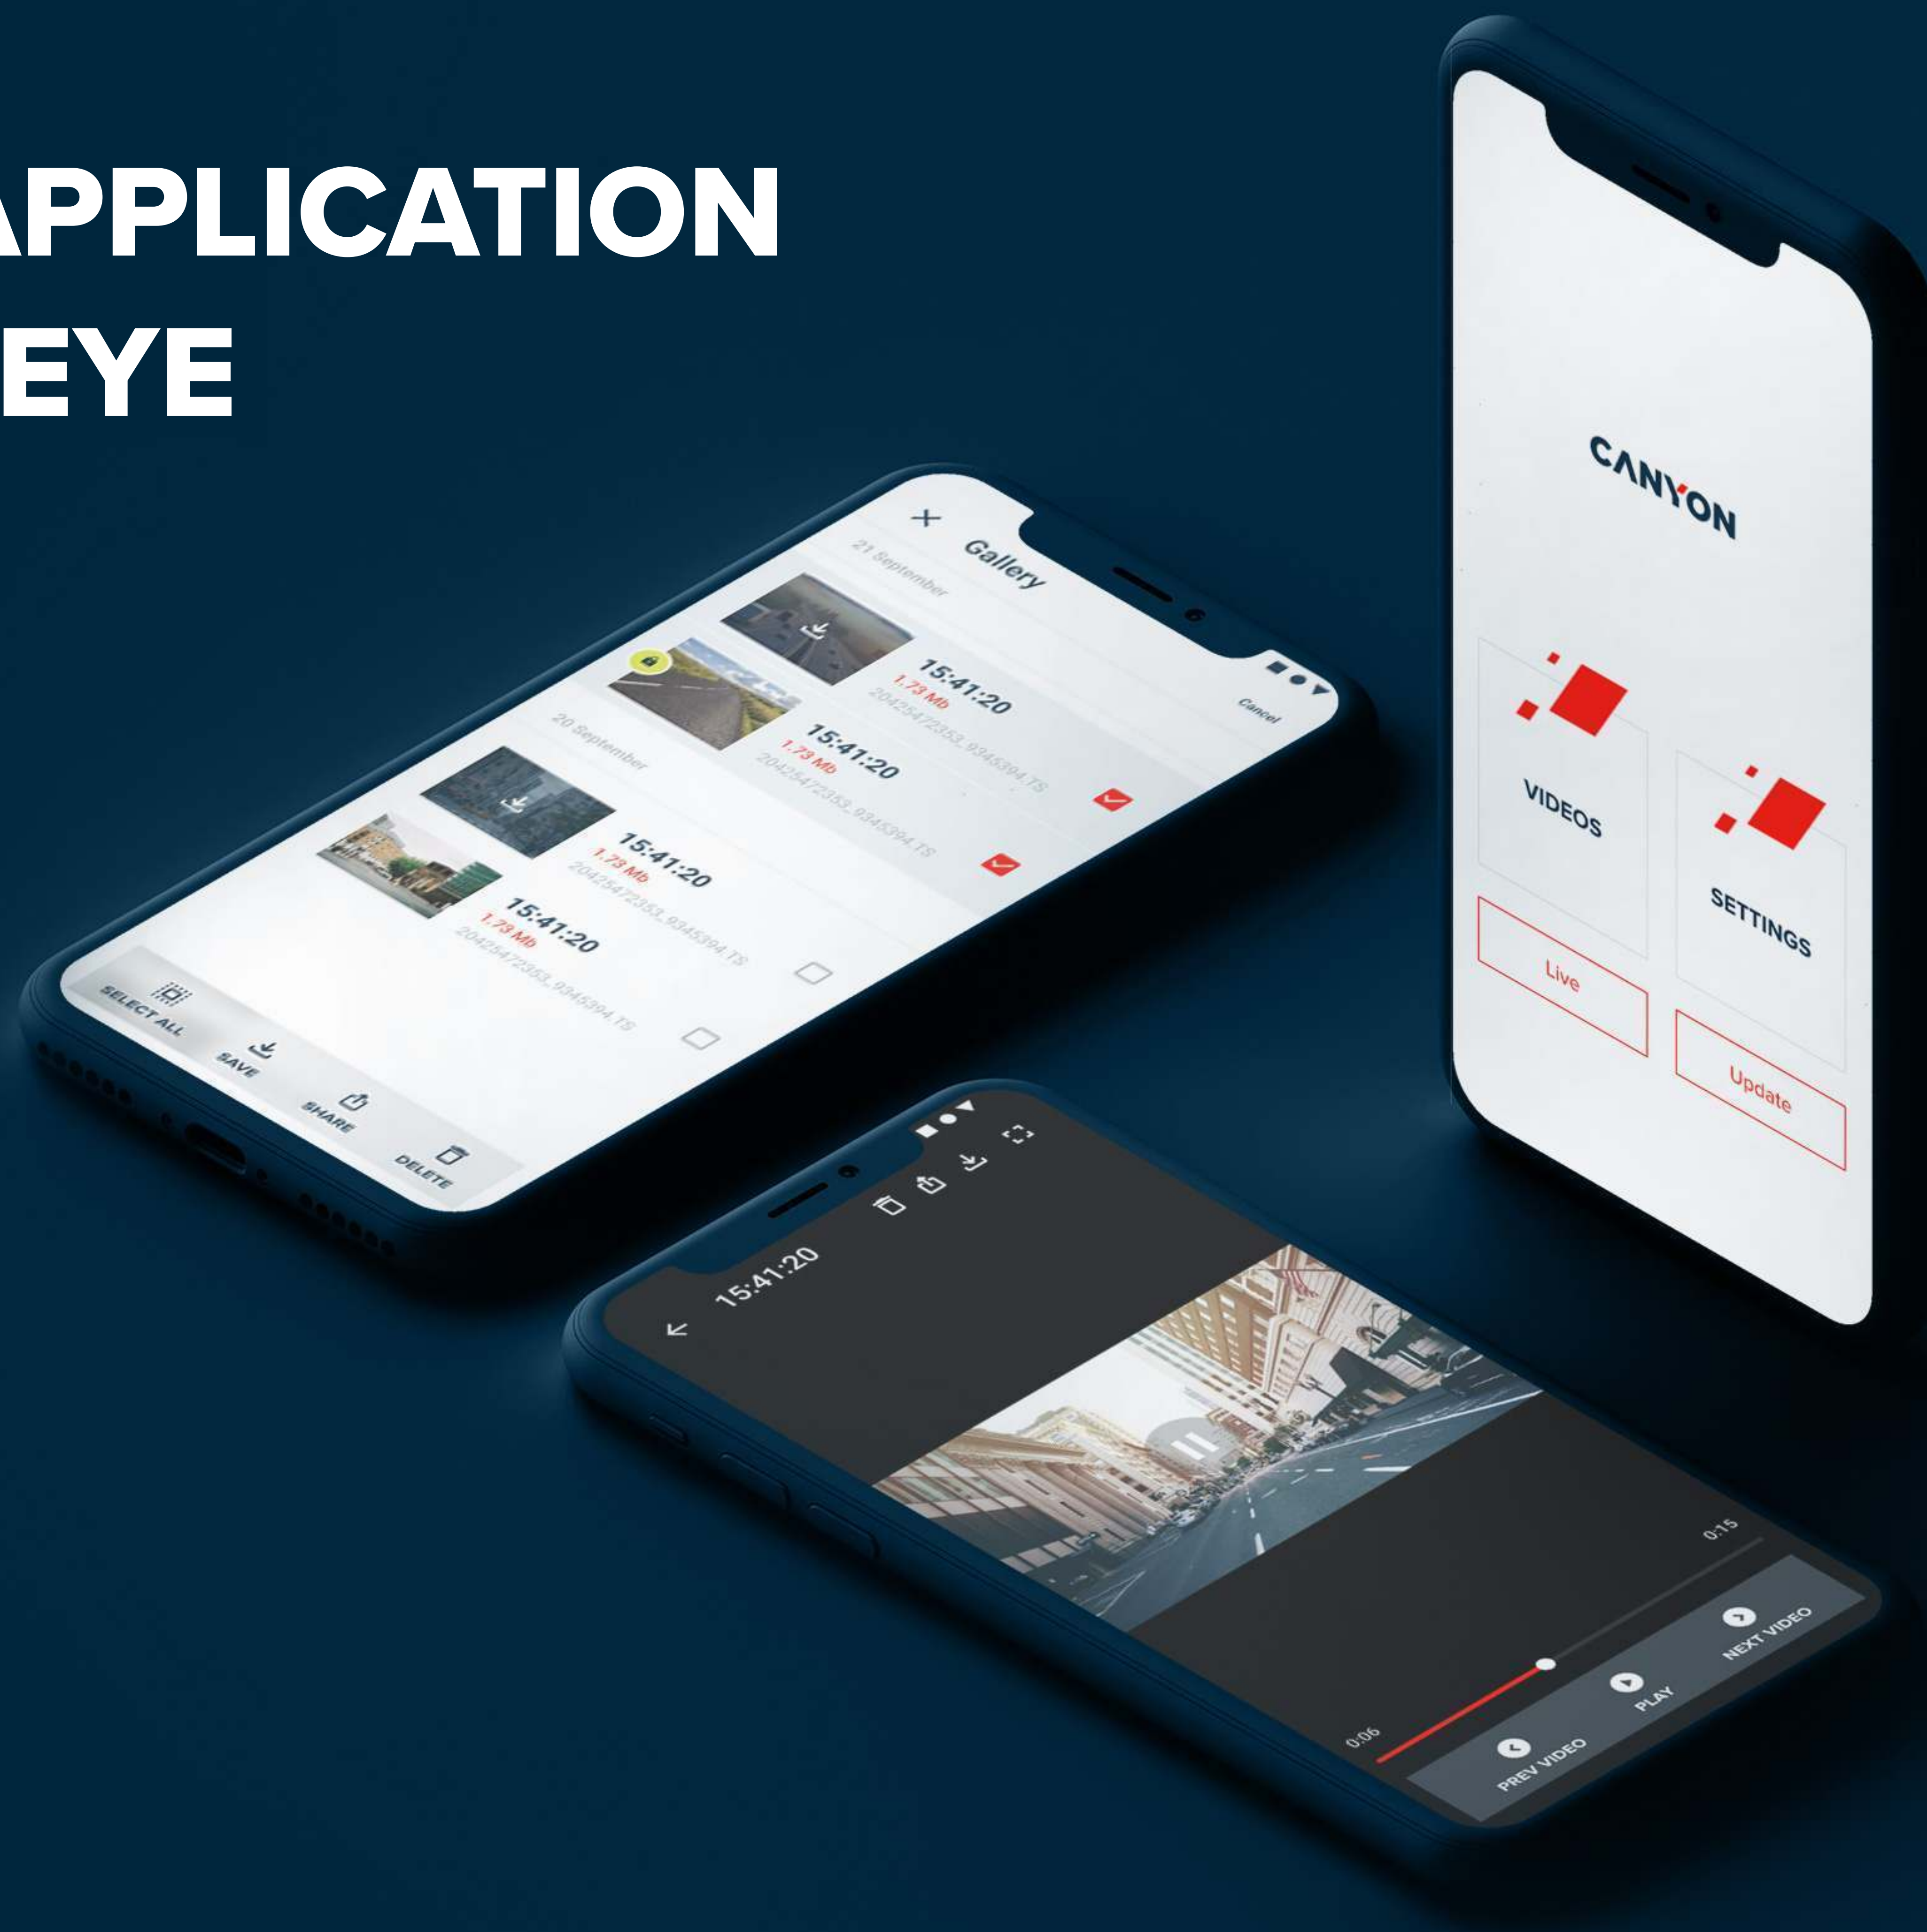

RELIABLE SUPERCAPACITOR

Equipped with a supercapacitor, Canyon DVR-10 has a stable power supply even in extreme temperatures. This robust power source provides increased reliability and longevity compared to traditional battery-powered devices.

MOBILE APPLICATION CANYON EYE

Experience seamless connectivity and effortless control with the car video recorder's WiFi and mobile application feature. Stay connected on the go, effortlessly accessing and managing your recorded footage, adjusting settings, and sharing with just a few taps on your smartphone.

TOUCH SCREEN DISPLAY

With a vibrant 3-inch capacitive touch screen, operating the dash cam is a breeze. Navigate through settings, preview recordings, and access additional features with a simple touch.

MAGNETIC MOUNT

Our dash cam comes with a magnetic mount with a power supply that offers secure attachment and easy removal. Easy as that.
