EC600 2.5" External HDD/SSD Enclosure

The EC600 2.5" SATA HDD/SSD enclosure is an environmental friendly drive enclosure that extends the service life of old drives when consumers upgrade their systems. Do your part for the planet by simultaneously reducing electronic waste and carbon emissions!

Save Your Drives, Save the Earth

The EC600 is the first and only HDD/SDD enclosure to utilize PCR materials. The outer casing of the EC600 is local manufactured from 85% PCR (Post-Consumer Recycled) plastic and other locally sourced materials to minimize environmental impact and maximize the restoration of Mother Earth.

A Cleaner Product Cycle

The EC600's reduced carbon footprint equates to 74% less CO_2 emitted throughout its product cycle. The EC600 comes to you in FSC certified packaging that ensures sustainable forestry practices. Users not only protect the environment by reducing electronic waste through reusing old drives, the drive itself is eco-friendly.
