

Ergonomic typing at any workplace

R-Go Compact Break keyboard

With personal break coach.

With break indicator

The keyboard is equipped with a break indicator, which alerts you with color signals when it's time to take a break.

Compact design

This compact keyboard ensures that your hands are always within shoulder width when using the keyboard and mouse simultaneously.

Ultra-thin design

The keyboard is ultra-thin which reduces muscle tension and stimulates blood circulation in order to prevent physical complaints.

Certifié et recommandé par AGR

Lightweight
This keyboard is lightweight and portable: perfect for on the road!

Patented break indicator
Download the R-Go Break software via **www.r-go-break.com**

Connections for Numpad Break (wired versions only)
USB connections for connecting the R-Go Numpad Break are available on both sides of the keyboard.

Ultra-thin design: 6 mm
Ultra-thin design to ensure relaxed, flat wrists during typing.

Light keystroke
The special scissor mechanism in the keys provides a light keystroke so you need less strength to type.

Compact model
With this compact design your hands always remain within shoulder width. This natural posture prevents RSI complaints.

100% Recycled plastic & aluminum
The plastic & aluminum used for this keyboard is 100% recycled.

Also available in white
Also available in white to prevent eye-strain.

Because we care.

R-Go Break

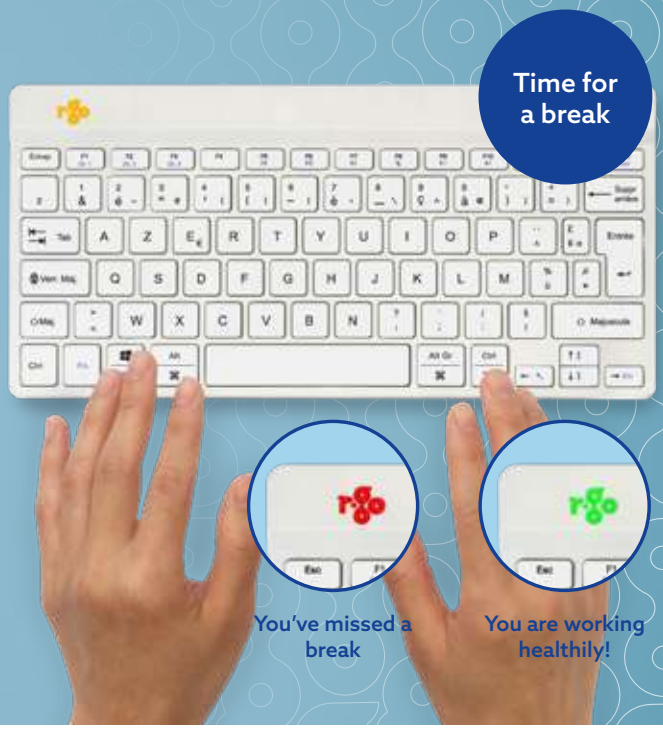

Your personal break coach

Short movements during your working day are vital for your health! Micro breaks prevent overloading of small muscles and tendons and improve your concentration. Because breaks are often forgotten when you are focused at work, we've developed a break tool that reminds you to interrupt your work on time.

The patented R-Go Break software uses colour signals to indicate when it's time to take a break. During keyboard usage, the light changes colour, like a traffic light:

- Green: you are working healthily!
- Orange: time for a break
- Red: You've missed a break

This way you will get positive feedback about your break behaviour. Download the **R-Go Break software (www.r-go-break.com)**.

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the Ecovadis Platinum certificate.

- All plastic and aluminium used for our compact keyboards is 100% recycled.
- Eco-friendly packaging made from recycled cardboard with FSC certified sleeves.
