

PULL OUT FLAT SCREEN WALL MOUNT WITH TILT & SWIVEL

B-Tech Elements products offer the core traits that B-Tech is known for: exceptional build quality, strength, and reliability, without some of the premium features typically reserved for our flagship mounts. Designed for large screens, the BT8443 is a pull-out flat screen wall mount with extendable arms that allow the display to swivel and tilt at various angles, which is ideal for recess mounting, optimising the viewing angle and allowing ease of access for servicing. Capable of supporting displays of up to 35kg, the mount includes a universal interface compatible with VESA patterns up to 650 x 400mm and offers built-in lateral adjustment.
