Tiny true wireless earbuds

Keychain charging case

Natural sound. Dynamic Bass

Clear calls

TAT2149WT

Tiny but mighty

With their oh-so-comfy design, these tiny, true wireless earbuds feel good and look good all day long! They pack a punch beyond their size with great sound and extra bass at low volumes. Going out? The case even fits on a keyring.

True wireless earbuds. Great sound, tiny buds.

- Ultra-tiny earbuds. Super-comfy fit
- Great sound even at low volume with Dynamic Bass
- 10 mm drivers and a bass-boost function
- Clear calls. They'll hear what you're saying

Keyring charging case. Sustainable materials.

- Up to 14 hours of play time. Charging case fits on a keyring
- Responsible design and packaging
- Touch controls. Supports your favourite voice assistants
- Philips Headphones app. Customise your sound

Ready for everyday use

- IPX4 splash and sweat resistant
- Solid Bluetooth multipoint connection
- Connect to two Bluetooth devices at the same time
- Warm, natural sound. Philips sound signature

Highlights

Ultra-tiny earbuds

Our smallest true wireless earbuds ever boast a low-profile design that fits great—and feels great—even if you wear them all day. The buds sit in your outer ear so there's no eartip burrowing into your ear canal: if you need a bit more grip, there are three sizes of silicone sleeves (included) to choose from.

Great sound. Dynamic Bass

These true wireless earbuds might be small, but you won't need to turn up the volume to get the best sound out of their 10 mm drivers. Activate Dynamic Bass via the left earbud or the Philips Headphones app, and you can enjoy the full power of your favourite basslines even when listening quietly.

Clear calls

Your voice will come through clearly when you're on a call. A dedicated mic picks up the sound of your voice while a noise-reduction algorithm quietens some of the background noise from the world around you.

Responsible design

We're continually working to make our supply chain more sustainable and transparent. These earbuds are made with RCS-certified post-consumer recycled plastics and our plastic-free packaging uses FSC-certified recycled cardboard.

Philips Headphones app

You can use the Philips Headphones app to manage which devices you're connected to. You can also fine-tune your sound with the equaliser, turn touch controls on or off, activate Dynamic Bass and more.

Up to 14 hrs (6 + 8)

You get 6 hours of play time from a full charge and an extra 8 hours from the tiny charging case. If you need a quick boost, pop the earbuds back in the case for just 15 minutes and you'll get an extra hour. It takes 2 hours to recharge the earbuds fully, and the case can be charged via USB-C.

Simple control

Touch controls keep things simple, and helpful confirmation tones let you know when you've activated a function. Siri and the Google Assistant are both supported, and you can connect to two devices at once — great if you're streaming music from a phone and getting alerts from your smartwatch.

IPX4 splash/sweat resistant

With an IPX4 rating, these true wireless earbuds are fully splash resistant. They won't mind a little sweat and you don't need to worry about getting caught in the rain. Plus, with a charging case small enough to carry on your keyring, you can take these mini marvels anywhere.

Solid Bluetooth connection

Advanced Bluetooth connectivity gives you a more stable connection for seamless streaming, and you can connect to two Bluetooth devices (iOS or Android) at the same time. Enjoy that playlist or listen uninterrupted to your favourite podcast without annoying dips in the sound.

Philips sound signature

From music to podcasts, you'll love what you hear! These true wireless earbuds feature large drivers, tuned to the Philips sound signature. Whatever you're into, you'll enjoy a warm, natural sound with deep bass.
