3.3ft (1m) Rugged USB Multi Charging Cable, USB to Lightning/Micro-USB/Type-C, Apple MFi Certified, Aramid Jacket, Universal 3-in-1 USB Charger Cord for iPhone/iPad/Android

Product ID: RLTCUB1MBK

This USB Multi Charging Cable is a single-cable solution to conveniently charge your Apple Lightning, USB-C, or Micro-USB devices

Keep this USB to Micro-USB, USB-C or Lightning cable on hand and minimize the need for carrying multiple charging cables. The 3-in-1 charger cord makes it easy to switch between different portable devices. The cable can charge one device at a time.

Charge your devices from a USB wall charger, car charger, or power bank. The attached connectors are quickly interchangeable for compatibility across multiple USB devices.

The cable's rugged design ensures optimal protection against wear from frequent daily use. The flexible TPE jacket absorbs stress from repeated bends, and Aramid-reinforced construction enhances tensile strength for long-term durability.

To charge or sync a USB-C or Lightning mobile device, simply attach the corresponding connector to the Micro-USB connector and plug into your device. To charge or sync a Micro-USB device, plug just the middle connector of the cable into your mobile device.

RLTCUB1MBK is Apple MFi certified for guaranteed compatibility with Apple Lightning-enabled devices.
