

# HOLM MODULAR 160

## GAMING DESK

### PRODUCT FEATURES:

- Modular desk with adjustable height in five levels (70 - 90 cm), which allows to set its height to the user's needs.
- The 160 x 75 cm tabletop provides a very large working space.
- Sturdy extendable steel frame and exchangeable side desk panels make it easy to customize the desk to your preferences (the set includes two side panels, other sizes available on [www.genesis-zone.com](http://www.genesis-zone.com))
- Equipped with foldable cup and headphone holders that can be hidden under the desk without disassembly.
- Under the desk expansive cable tray designed for large power strips.
- In the frame, cable grommets for better organization of the space around the desk.
- Remotely controlled LED backlight with multiply effects and possibility to change the lighting angle.
- This model can be converted into a corner desk after the purchase of an adequate set available at [www.genesis-zone.com](http://www.genesis-zone.com).
