

Anker Prime USB-C to USB-C Cable (3/6 ft, 240W, Upcycled-Braided)

A88E2(3ft/6ft)

Exceptional Durability:

Features an inner layer of 160 ultra-fine copper wires, offering unparalleled bend resistance. Tested for over 500,000 bends, it's designed to last 100 years without damage. The bending resistance is more than 10 times that of competing products.

Superior Softness and Flexibility:

The cable's middle layer is crafted from high-grade silicone, making it five times softer than standard cables and effectively preventing knots. The softness like A82E2

Eco-Friendly Design:

The outer layer is composed of 100% post-consumer recycled materials for environmental sustainability.

240W Fast Charging:

Integrated with E-mark chips, it supports up to 240W power output, compatible with a wide range of USB-C devices, including laptops and earbuds.
