## MOUNTING INSTRUCTIONS

1. If you want to install two appliances, remove the front plate by applying pressure around the edges, starting at the bottom. Once the plate is partially detached, you can remove it completely by gently wiggling it.
2. Slide the appliance into the rack from the front.
3. Secure the appliance from the back using one of the screws provided with the appliance.
4. Guide the power cable through the front and secure it to the rack using the provided zip ties. When using an external power supply, it can be placed against the L-bracket behind the appliance and secured with two zip ties.

Please ensure proper ventilation according to the network appliance manufacturer's guidelines.
