

MPN: CAB-TEST10

Network Cable Tester Set 4 parts with bag

This network set provides all the essential tools for assembling cables, wall sockets, and patch panels, as well as for testing the components afterward. It's ideal for setting up and maintaining your home network or small office/home office (SOHO) infrastructure

This set includes:

- Crimping tool compatible with RJ-12 (6P6C) and RJ-45 (8P8C) modular plugs
- IDC punch down tool with two fold-out pull hooks
- Cable tester for RJ-12 (6P6C) and RJ-45 (8P8C) (9V battery not included)
- Universal stripping tool
