Description

This premium power cord offers a reliable and efficient solution for connecting your equipment to a European power source. Featuring an IEC C14 plug on one end and a CEE 7/3 Schuko socket on the other, it is designed to meet the highest standards of safety and performance. The cord supports a voltage rating of up to 250V and a current capacity of 10A, making it ideal for powering a wide range of devices, including computers, servers, and other IT equipment.

Manufactured with durable materials, this power cord ensures long-lasting performance and resistance to wear and tear. The connectors are precision-molded for a secure fit, minimizing the risk of disconnection or power loss. The cable is constructed with high-quality copper conductors for excellent conductivity and reduced energy loss, ensuring stable and efficient power delivery.
