Dreame J1

Pool surfaces perfected

Operating 24/7, J1 keeps the surface of your pool neat at all times. With smart path planning and dual side brushes, it clears surface debris and corners efficiently while scrubbing the waterline to remove oils and grime. The innovative flow path design optimizes debris retention, securely locking waste in the filter basket. Advanced PoolSense™ technology allows it to navigate around walls and obstacles, protecting your pool from collisions. Plus, with convenient Dreamehome App control, managing cleaning sessions from anywhere is a breeze.

Key Selling Points

Non-Stop Cleaning, Non-Stop Performance

Powered by a cutting-edge Dual Power System, the 18W solar panel and 5,000mAh battery, it captures sunlight for seamless, continuous performance. Enjoy long-lasting performance with minimal recharges.

Dive into an All-Around Pristine Pool

J1 provides 360° pool surface coverage, expertly removing debris like leaves, hair, dust, and insects. Its dual-roller brush targets the waterline and corners, removing stubborn stains for a deep, thorough clean.

Big Capacity Leads to Big Convenience

The 5L high-capacity bin reduces the need for constant cleaning. A simple touch opens the bin for hassle-free waste disposal, and a quick rinse restores its cleanliness with minimal effort.

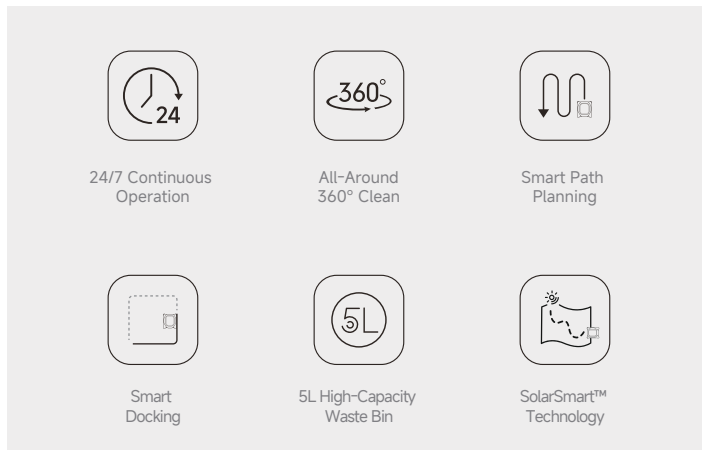

Cleaning Modes Tailored to Your Needs

Select your preferred mode via the Dreamehome App—Waterline for spotless edges, Surface for debris removal, or Combo for full pool care. Simple tap, effortless clean.
