

Ascom Myco 4

Approved accessories for optimized mobile workflows

Use Ascom-approved accessories to maximize the performance and get the most value out of your Ascom Myco 4 smartphone. Whether you want to personalize your device by adding or removing the carrying clip - or to increase uptime with spare batteries and our modular flexible charging solution - we have just what you need.

Maximize uptime and workflow continuity

With a fleet of spare batteries and wall mountable battery/handset charging racks you can ensure staff always have fully charged devices on hand. Combine with the Myco 4 battery hot-swap feature and ensure zero downtime for your mobile workforce.

Modular charging concept

Myco 4 features a flexible modular charging concept with different building blocks. This makes configurations available for every taste. Mix and match any combination of charging modules into the base charging rack. You can charge Myco 4 smartphones, combinations of smartphones and batteries, or only the batteries if smartphones are used 24/7.

Screen protection for extra durability

Help maximize the lifetime of your Ascom Myco 4 smartphones with screen protectors. These protectors help ensure optimal viewing and user interface with the high-definition screen.

Make it personal, keep it close

Use color-coded tags to quickly identify specific Ascom Myco 4 smartphones. Spare clips for different carrying solutions are also available.

Charging accessories

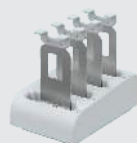

Charger base
Art. no. CB1-U1

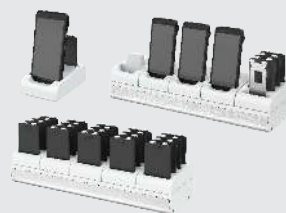

Charger module handset

About Ascom

Our vision is a world where the right information moves people forward. Our mission is to put the right information in the right hands at the right time so that people can make the best possible decisions.

We are a global provider of communication and collaboration solutions for the acute care, long-term care and enterprise sectors. Our solutions are based on intelligent integrations with software and hardware that are open source and compatible with third party solutions. Every single second, our systems generate large amounts of data, which we then turn into useful and actionable information. This helps us to bring data to life for people in the toughest operational environments, ensuring smooth, complete, and efficient workflows.

Ascom is headquartered in Baar (Switzerland), has operating businesses in 19 countries and employs around 1,400 people worldwide. Ascom registered shares (ASCN) are listed on the SIX Swiss Exchange in Zurich.
