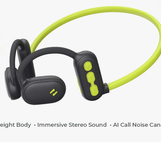
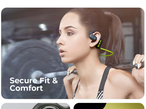
HAVIT

FREEGO PRO Air Conduction Wireless Headphones

Weightless Wearing
Unrestricted Listening



- Lightweight Body - Immersive Stereo Sound - AI Call Noise Cancellation



Open-Ear Listening
Safer Sports

The headphones utilize new air conduction technology, directing sound with beamforming for open-ear listening. It can keep you aware of your surroundings in real time, improving safety during outdoor activities.

Weightless Wearing
Makes Your Workouts More Enjoyable

The headphone's design optimizes weight distribution, ensuring a balanced fit that won't pinch your ears during workouts. It stays securely in place, allowing you to fully enjoy your active moments.

Powerful Bass
Experience Dynamic Melodies

Both sides of the headphones are equipped with a 15mm dynamic driver unit, delivering highs, mids, and lows with distinct frequency layers. Powerful bass and dynamic rhythms unleash your sporting passion.

16.5 Hours Battery Life
Say Goodbye to Battery Anxiety

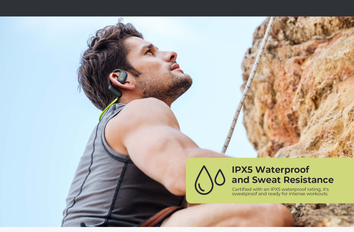
Play Time about **16.5h**

Talk Time about **9.5h**

Featuring a high-capacity battery, it offers over 16.5 hours of battery life on a full charge, supporting you through various daily workout routines with ease.

AI Call Noise Cancellation

The dual-microphone array design, combined with AI noise cancellation technology, precisely captures your voices, allowing you to enjoy clear phone calls.



IPX5 Waterproof and Sweat Resistance

Certified with an IPX5 waterproof rating, it's sweatproof and ready for intense workouts.
