The little companion with the two faces. The hard shell for everything that only becomes important in the hotel, for example, laundry or toiletries. The integrated soft bags for everything you need on the go, for example, business documents, catalogues, travel documents and mobile devices. In the larger compartment, there is even room for a laptop up to 13" in dimension. Both together result in 36 HOURS TROLLEY - probably the smartest case management on four twin lightweight wheels. With numerous partly padded pockets and compartments and telescopic handle. The TSA combination lock for main and compartment pockets can be opened with a master key during security checks (for example, at customs). So there is no danger that the trolley will be broken open without further inquiry. Only 18.5" in dimension - therefore approved as hand luggage. Have a good journey!
Using this Travel Sentry ® Approved lock allows your luggage to be opened, inspected and relocked by security without damage.
