

ICY BOX IB-M2HS-701

Heat sink for M.2 SSD

Key features

- Passive heat sink for M.2 2280 SSD
- Improves the heat distribution of M.2 SSDs
- Includes silicone thermal pads to conduct heat
- Can be used on motherboards
- Easy to install, easy to remove, low profile

Packing content

1x IB-M2HS-701, 2x 1 silicone thermal pad, 1x manual

Stay cool

The principle is passive cooling for M.2 SSDs with a length of up to 80 mm and only 5 mm height, which results in more power. For an easy installation everything is included in the package: thermal pads and the cooling plate (IB-M2HS-701). First, the heat conducting pad is placed on the M.2 and the cooling plate is then placed on top of this. Due to the low height of the cooling plate, it does not interfere with the installation and thus dissipates the heat very quickly.

Technical data

Model	IB-M2HS-701
Article No.	60361
EAN code	4250078166832
Brand	ICY BOX
Article text	Heat sink for M.2 SSD
Colour	Black

Material M.2 support Silicone thermal pads

Aluminium
M.2 2280, 22 x 80 mm
Material: Silicone
Thermal conductivity: 1.5 W/mK
Operating temperature: -20° C ~ 180° C
2x Blue: 70 x 20 x 1 mm (main pad at the top of M.2)

ICY BOX **IB-M2HS-701** Heat sink for M.2 SSD

Do not disturb!

The compact design makes it fit perfectly on motherboards so that it does not interfere with other components, like a big graphics card.

Thermal pads

Thermal plates are just as heat-conduction paste a medium to optimize the derivation of the heat loss of electronic components.

Cooling plates

The thermal aluminium fins extend the surface to make sure that more heat can be given off to the surrounding area to optimize the performance once again.

Logistical data

Packing unit: 100 pcs./carton
Total weight: 6.5 kg/carton
Gross weight: (with packing): 0.057 kg
Net weight: 0.008 kg

Dimension/Carton: 530x300x260 mm
Dimension (with packing): 100x25x85 mm
Dimension of article: 70x21x5 mm
Country of Origin: China
