

Pneumatic Connector 2 x 8 mm to 1 x 10 mm with mounting hole Y-shape

Description

These pneumatic connectors by Delock are ideal for quick and secure connection of hoses in compressed air and pneumatic systems.

With mounting hole

The practical mounting hole allows the connector to be quickly and securely attached to machines, brackets or other mounting points. This ensures a stable connection and prevents the cables from slipping or coming loose.

Y-shaped design

The Y-shaped design allows two lines to be easily merged or split into a third direction. It ensures even flow and a stable connection, ideal for pneumatic systems where lines need to be branched without affecting the flow.

Ø 8 mm / Ø 10 mm

Item no. 60752

EAN: 4043619607525

Country of origin: China

Package: Zip poly bag

Special features

- Suitable for air and pneumatic lines
- High tightness and durable connection
- Quick installation without tools
- Integrated mounting hole
- Y-shaped design

Technical details

- Design: Y-shaped coupling
- Hose connections:
 - 2 x 8 mm (inlet)
 - 1 x 10 mm (outlet)
- With mounting hole
- Mounting hole diameter: ca. 4.2 mm
- Operating temperature: -10 °C ~ 60 °C
- Operating pressure: up to ca. 10 bar (depending on the system)
- Material: robust plastic with metal clamping ring
- Colour: black
- Dimensions (LxWxH): ca. 44.0 x 29.0 x 14.5 mm

Package content

- Pneumatic connector
