PSG7300/20

Highlights

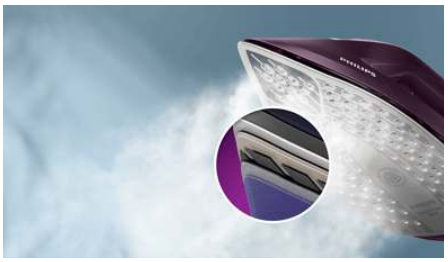
Intelligent automatic steam

Motion-sensor technology recognises when the iron is moving over your clothes and automatically releases powerful steam. Enjoy effortless and fast ironing while the iron does the steam work for you.

TurboPower steam engine

TurboPower steam engine for an improved ironing experience; more powerful steam flow without interruptions. The TurboPower engine cuts down on the wet spots on your garments during ironing*, making them wardrobe-ready with no waiting time to dry.

SteamGlide Elite soleplate



SteamGlide Elite is our newest and most advanced technology for the ultimate gliding performance and excellent scratch resistance. Advanced Nano-Titanium layer provides superior gliding performance on all garments for the fastest results.

1.5 L large detachable water

Up to 1 hour of uninterrupted ironing thanks to the large 1.5 L water tank. When the water tank is empty, the sound and light indicators will remind you to refill it, which you can easily do under the tap through the large filling door.

No burns guaranteed

No burns guaranteed on all ironable fabrics regardless of the steam setting you chose, thanks to OptimalTEMP technology. Iron any type of garment, from a silk blouse to a cotton shirt, with peace of mind. We guarantee that your steam generator will never cause burns to any ironable fabric even when the iron is left unattended. You can safely leave it resting on your clothes or ironing board.

ECO Mode

50% less energy consumption in ECO mode**. Choose ECO mode for your delicate garments. Reduces energy consumption without compromising on great results.

Easy De-calc

Regular descaling protects your iron, extends its lifetime and ensures the best steam performance. Our exclusive Easy De-Calc system collects limescale continuously with an indicator light to tell you when it needs emptying. Simply remove the plug and let the water and scale particles flow out.

Vertical steaming

Steam and refresh dresses, jackets and curtains vertically thanks to this lightweight iron. The iron is amazingly lightweight and comfortable to handle, gliding easily and reducing wrist strain.

Auto shut-off

Automatic shut-off when the iron is left unattended, for peace of your mind. You never have to worry again about whether or not you've unplugged the iron before leaving the house.

Specifications

Technical Specifications

Power: 3120 W
Pressure: 8.5 bar
Ready to use: Light
Continuous steam rate: Up to 170 g/min
Steam boost: 650 g
Frequency: 50 – 60 Hz
Voltage: 220 V-240 V
Technology: OptimalTEMP

Safety

Automatic shut-off: Yes

Country of Origin

Produced In: Indonesia

General Specification

Heat-up time: 2 mins
Soleplate name: SteamGlide Elite
Detachable water tank: Yes
Water tank capacity: 1.5 L
Vertical steaming: Yes
Warranty/Guarantee: 2 years

Weight and Dimensions

Product dimensions (W x H x L): 24 x 28.8 x 44.4 cm
Package dimensions (W x H x L): 31 x 28.8 x 49 cm
Product Weight: 4.55 kg, Weight of the iron+base: 4.69 kg
Total weight with packaging: 6.4 kg

Design

Colour: Louros blue, Deep Azure
