Highlights

Purifies in under 12 minutes

Faster purification in a compact, elegant design (1). With powerful filtration of 250 m3/h (CADR), it can easily handle spaces of up to 65 m2 (2) and can clean a room of 20 m2 in under 12 minutes (3).

3 layer HEPA filtration

3 layer filtration made of a pre-filter, HEPA NanoProtect and Active Carbon captures 99.97% of particles as small as 0.003 microns (4) — smaller than the smallest known virus!

Quiet and no light disturbance

Enjoy undisturbed sleep with our innovative purifier. In Sleep mode, it operates at 20.5 dB (5), quieter than a whisper. Also, the digital display light is dimmed, minimising any light disturbance.

Captures 99.99% of allergens

All-day protection for allergy sufferers. Removes 99.99% of dust-mite, pollen, pet or mould-spore allergens (6), known triggers of allergy or hay fever symptoms (7). ECARF certified allergy-friendly.

Captures viruses from the air

Removes 99.9% of airborne viruses and bacteria. Independently tested to eliminate H1N1 influenza virus (8), Staphylococcus bacteria (9) and 99.99% of Hcov-E229 coronavirus (10).

Low energy consumption

Enjoy cleaner air while keeping your energy bill low. At maximum power, the air purifier uses 23 W — less energy than a traditional light bulb.

Traps smells and gases

The Active Carbon layer captures odours and removes >90% of gas pollutants that hurt indoor air (11): NO2 from industry and traffic pollution, Toluene or VOCs from house paint, detergents and furniture. Safe and effective: no ions, chemicals or ozone emitted.

Smart air quality sensor

AeraSense technology scans the air 1000 x a second to detect pollutants and gases. It reports the air quality in real time on the product display or in the app. In Auto mode, the device intelligently chooses the right speed to respond to each situation.

Smart control with Air+ app

Pair the air purifier with the Air+ app for indoor and outdoor air quality monitoring, remote control and voice commands via Google and Alexa. In the app, select Auto+ mode for AI technology that adapts to your routine while minimising noise and energy use.
