New Dimension Of Entertainment!

PRO-Gaming AR BOW
Wireless arc-shaped controller compatible with smartphones. Dedicated games allow you to move into the world of augmented reality, thanks to even better representation of reality - aim and shoot in reality and observe your effects on the smartphone screen.

A NEW DIMENSION OF ENTERTAINMENT
Arc Platinet AR BOW uses Bluetooth technology to communicate with a smartphone, thanks to which the connection does not require wires and is carried out instantly. Built-in mount allows you to work with devices with a screen diagonal of 4 to 6 inches. Two traditional AAA batteries are used to power the controller.

MANY GAMES
To start playing, just scan the QR code on the package - then you will download a free app (available for Android and iOS), where games dedicated to the controller are available. Action, arcade, adventure and educational games - you can choose from 6 free titles. New games are added and updated on a regular basis.

GAIN ADVANTAGE
Take the bow in your hand, tug the string and shoot! Thanks to such service options you will gain an advantage over your competitors, you will be invincible in every game and you will learn the basics of handling one of the oldest propelling weapons.
