

CONNECTOR

Smart connector with BATTERY SAFETY SYSTEM

Smart CONNECTOR designed to use 18V battery packs on the SCANGRIP CONNECT work lights.

Whichever power tool brand you prefer, SCANGRIP has developed a unique CONNECTOR for each individual brand that fits 18V battery packs. Simply mount the CONNECTOR to the work light, attach your battery and you are ready to work.

A BATTERY SAFETY SYSTEM protects the battery pack and makes it safe to use. The safety system features an automatic discharge protection, overload protection and temperature surveillance which means you can use your 18V battery pack again and again without it being damaged.

The SCANGRIP CONNECTORS are approved by TÜV Rheinland. Each CONNECTOR is sold under separate item numbers and individually designed to fit each power tool brand.
