

► Features

- 19" Rack mounting
- Stable and rigid construction
- Very flexible
- Power up to 480 Watt
- Easy installation on TR3000 plate
- Compact design
- Mounting bolt, nut and washer included
- 50 V, 70 V or 100 V input tapings
- 2 Ohm, 4 Ohm and 8 Ohm output tapings

► Applications

For all 50V, 70V or 100 V applications with a power value of 30 Watt to maximum 480 Watt

The AUDAC TR3000 serie is a line of 19" line transformer combinations. It exists of the TR3000 19" installation plate, on which the desired TR3xxx line transformers can be mounted. Depending of the size of the desired transformer, there can be mounted 2 up to 6 transformers on the TR3000 installation plate.

The TR3xxx offers a range of line transformers with a power ranging from 30 Watt up to 480 Watt.

The different transformers of this range are:

- TR3030: line transformer 30 Watt
- TR3040: line transformer 40 Watt
- TR3060: line transformer 60 Watt
- TR3080: line transformer 80 Watt
- TR3120: line transformer 120 Watt
- TR3240: line transformer 240 Watt
- TR3480: line transformer 480 Watt

There are different input tapings for 50 V, 70 V and 100 V lines, and the output impedance is selectable between 2 Ohm, 4 Ohm and 8 Ohm.

All these transformers are designed to be mounted on the TR3000 installation plate and are supplied with all accessories for mounting.
