- *The product is only compatible with official controllers, it does not support 3rd party or non-licensed controllers.
- *For PS5 controller compatibility, supports PS4 games only.

COMPATIBLE PLATFORMS & CONTROLLERS

For PS4 Console

1. Connect PS4 console with TV via a HDMI cable.

2. Plug the Nova-Sync to the console, the LED indicator on Nova-Sync flashes.

3. Press the Nova-Sync pairing button for connecting with the Switch Pro controller.

Switch Pro Controller

4. Press the pairing button on Switch Pro controller for 3 - 5 seconds, controller LED indicators will start circulating.

5. Once pairing is completed, the Nova-Sync and controller indicator stay on.

PS5 Controller

4. Press and hold 'Create + PS' buttons together for 3 - 5 seconds, touch pad light bar flashes in blue.

5. Once pairing is completed, the Nova-Sync indicator and touch pad light bar stay on.

Xbox One Controller

4. Press Home button to switch on the controller, Home button LED flashes, then press Pairing button for 3 - 5 seconds.

5. Once pairing is completed, the Nova-Sync indicator and controller Home button stay on.

Xbox Series X|S Controller

4. Press Home button to switch on the controller, Home button LED flashes, then press Pairing button for 3 - 5 seconds.

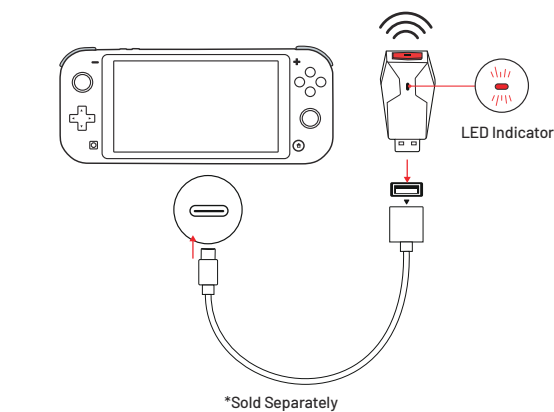

5. Once pairing is completed, the Nova-Sync indicator and controller Home button stay on.

***Same pairing steps for all other official controllers to compatible platforms. (Apart from Switch Lite.)**

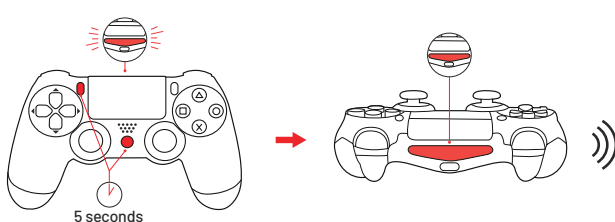

***For connecting to the Switch / Switch OLED console, please go to "Settings > Controllers and Sensors > Wired Connection of Pro controller" before pairing.**

For Switch™ Lite

- Go to "Settings > Controllers and Sensors > Wired Connection of Pro controller" on Switch Lite console.
- Connect the Switch Lite and Nova-Sync with a Type-C to USB female adapter. Once connected, the LED indicator on Nova-Sync flashes.
- Press the Nova-Sync pairing button for connecting with the PS4 controller.

- Press and hold 'Share + PS' buttons together for 3 - 5 seconds, the controller light bar flashes in white.
- Once pairing is completed, the Nova-Sync indicator stays on and PS4 controller light bar lights up in purple.

*For other compatible official controllers, the pairing steps are the same as how to connect to the PS4 controller.
