SIGNAL WHITE

DIMENSIONS
(HxWxD)
89 x 483 x 217 mm
3.50 x 19.00 x 8.54 inch

MOUNTING INSTRUCTIONS

1. For the 70F, remove the top part of the opening. If you want to install two appliances, remove the left front plate by applying pressure around the edges, starting at the bottom. Once the plate is partially detached, you can remove it completely by gently wiggling it.
2. Slide the appliance into the rack from the front.
3. Secure the appliance from the back using one of the screws provided with the appliance or a thumb screw.
4. Guide the power cable through the front and secure it to the rack using the provided zip ties. When using an external power supply, it can be placed against the L-bracket behind the appliance and secured with two zip ties or it can be secured via DIN-clip.

Please ensure proper ventilation according to the network appliance manufacturer's guidelines.

PACKAGE CONTENTS

1 Rackmount
6 Zip ties
2 Thumb screws

Appliance not included.
