Description

Turn Your Traditional Power Adapter into a Universal Charger

The Akyga® AK-ND-D02 adapter, **featuring a 7.4x5.0 mm + pin to USB-C connector**, is a practical accessory that transforms a standard laptop power adapter into a modern USB-C charger. With this adapter, you can effortlessly power devices equipped with the most widely used charging port — USB Type-C — eliminating the need to purchase additional chargers.

Supports USB-C Power Delivery Technology of up to 65 W

The Akyga® AK-ND-D02 **laptop adapter** supports the Power Delivery standard, delivering 5 V, 9 V and 20 V and a maximum **power of 65 W**. It is the perfect solution for efficiently charging ultrabooks, tablets and other mobile devices that require stable and fast power.

Compact and Lightweight - Ideal for Travelling

Thanks to its compact size and lightweight design, the USB-C adapter is convenient to use and easy to store. It fits effortlessly into your bag or pocket, making it great for both work and travel. It will effectively reduce the number of chargers you need on the go.
