SKU: 462716 | EAN-13: 0766623462716 | UPC: 766623462716

Affordable, Rolling TV Stand with Tilt and Storage Options

The Economy Height-Adjustable Multimedia TV Cart from Manhattan is a cost-effective and versatile solution for mounting and moving large displays in professional environments. Designed to securely hold one TV between 37" and 70" with a maximum load of 70 kg (154 lbs.), it combines stability, flexibility, and ease of use in a clean, modern design.

Optimized Viewing Comfort and Adjustable Height

To ensure an optimal viewing experience in any situation, the cart features a -10° to +5° tilt function that reduces reflections and improves visibility. The height of the display can be adjusted to three fixed levels (1337/1384/1430 mm / 52.6/54.5/56.3 in.), allowing the screen position to be adapted quickly to different room layouts, audience sizes, or use cases.

Ready for Video Conferencing and Multimedia Setups

The integrated top-mounted camera shelf makes the TV cart ideal for modern video conferencing and hybrid meetings. It securely supports cameras or small peripherals at eye level. A second height-adjustable AV shelf provides ample space for laptops or accessories, enabling a complete multimedia setup on a single mobile unit.

Robust Construction with Clean Cable Management

Built from high-quality steel, the TV cart offers excellent stability and durability. Its antistatic powder coating with an attractive matte black finish ensures long-lasting protection while blending seamlessly into professional spaces. Integrated cable management keeps power and signal cables neatly organized, maintaining a clean and professional appearance at all times.

Mobile and Secure

Equipped with four lockable casters featuring durable PVC treads, the cart moves smoothly across different floor surfaces while remaining securely in place during use. It is ideally suited for presentations, video meetings, and training sessions in conference rooms, offices, classrooms, reception areas, trade shows, and retail environments. Broad VESA compatibility from 100x100 to 600x400 ensures support for a wide range of display models, making this TV cart a reliable and flexible choice for everyday professional applications.
