- Enriched flavour with our hard-wearing ceramic grinder
- Find inspiration and support on our app
- Up to 5000 cups* without descaling thanks to AquaClean
- Quietly prepare aromatic coffee with SilentBrew

Highlights

5 hot & refreshing drinks

At one touch, enjoy popular coffee recipes, from classic espresso, regular black coffee, espresso lungo to iced coffee, with the perfect crema, aroma and temperature. Hot water for tea is also available. Our unique brewing system perfectly extracts the beans' flavours with a slower flow rate and at lower temperature. Add ice cubes to your drink and enjoy a delicious iced-coffee, with no compromise on coffee intensity.

Easy coffee selection and customisation

Easily select your favourite drinks thanks to the modern touch screen display with coloured icons. Adjust your coffee your way with the My Coffee Choice function: choose your preferred coffee strength, length and milk froth level, just to your taste.

Milk frothing made easy

Easily prepare your favourite milk-based coffees in only 2 steps. The classic milk frother prepares thick-frothed milk to which you can add espresso and enjoy a delicious cappuccino. You can even prepare hot milk for your hot chocolates.

100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. The durable ceramic grinder of this Philips 3300 coffee machine can be adjusted in 12 steps, from fine to coarse grinding.

Effortless coffee via HomeID App

Learn the ins and outs of your machine and discover new café-style coffee recipes on our HomeID app.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups*, while enjoying clear and purified water.

Quiet coffee making with SilentBrew

Quietly prepare aromatic coffee thanks to our industry-leading SilentBrew technology, which uses sound shielding and quiet grinding to create a pleasant coffee making experience. Certified by Quiet Mark....

Specifications

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500 W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 433 mm
Product Width: 246 mm
Product Height: 371 mm
Product Weight: 8 kg
Package Length: 491.5 mm
Package Width: 287.5 mm
Package Height: 487 mm
Package Weight: 10-12.5 kg

Country of Origin

Produced In: Romania
