# ELEVATE YOUR OFFICE PRODUCTIVITY WITH COMPACT, RELIABLE DESKTOP SCANNING

imageFORMULA
DR-C300 series

**The Canon imageFORMULA DR-C300 Series are super compact A4 document scanners designed for maximising document workflow efficiencies in small workspaces.**

**SCANNING SPEED**
**DR-C360: 60PPM / 120IPM**
**DR-C350: 50PPM / 100IPM**
**DR-C340: 40PPM / 80IPM**

**AUTOMATIC DOCUMENT FEEDER 100 SHEETS**

**SUGGESTED SCANS PER DAY**
**DR-C360: UP TO 13,000**
**DR-C350: UP TO 8,000**
**DR-C340: UP TO 7,000**

**COMPACT SIZE JUST 283MM WIDE**

## BENEFITS

- **Save desk space** with our narrow scanner design ; perfect for branch offices , retail spaces and reception areas.
- **Versatile and flexible document workflows** with robust feeding mechanism that ensures best in class reliability for scanning various types of documents.
- **Easy operation** with an intuitive display and easy-to-follow icons including one touch scanning with preconfigured jobs – accelerating and simplifying scanning tasks.
- **Maximise productivity** with duplex scanning speeds of up to 120ipm and ability to stack up to 100 sheets in the document feeder.
- **High-quality scanning** with various advanced image processing tools to automatically produce crisp, clear images from all types of documents, even those with feint writing or patterned backgrounds.
- **Included Software** that offers additional value with automatic file naming, batch separation and OCR / barcode processing, and file saving to multiple formats.
- **Reduce environmental impact** Support the environment by using this highly durable device with low power consumption and reduced parts usage.

Canon

# A ULTRA COMPACT WITH EASY AND FLEXIBLE OPERATION.

## ULTRA COMPACT, SAVING YOU SPACE

Designed for offices where space is at a premium, the DR-C300 Series features an ultra-compact, narrow footprint that occupies significantly less desk space than many competing models. Perfect choice for branch offices, retail environments, and reception areas where maximizing workspace is essential.

## VERSATILE SUPPORTING ALL DOCUMENT WORKFLOWS

Built with a robust paper feeding mechanism, the DR-C300 Series reliably batch scans a wide variety of document types, from ultra-thin paper and ID cards to documents up to 6m long. Passports can also be scanned directly through the feeder without the need for a separate carrier sheet. Ultrasonic double-feed detection ensures all documents are scanned and the Double Feed Release (DFR) function allows scanning to restart quickly, keeping downtime to a minimum.

## EASY OPERATION FOR HASSLE FREE SCANNING

Easy operation with an intuitive display and easy-to-follow icons including one touch scanning with preconfigured jobs – accelerating and simplifying scanning tasks. Raised buttons support accessibility, while sensors flag errors to keep scans moving. And, with the DR Management Tool, you can centrally manage several scanners across your organisation. The scanners are provided with Type-C™ cable for easy convenient connectivity[1].

Canon

## MAXIMISE PRODUCTIVITY AND IMAGE QUALITY

Elevate performance and efficiency with duplex scanning of up to 120ipm (DR-C360 model). Using the large 100-sheet feeder batch scan several documents at once; save further time and effort with automatic file separation and adaptive image processing controls. Create consistent high-quality images when scanning all types of documents thanks to Active Threshold, and other advanced image processing tools.

## POWERFUL SOFTWARE WITH OCR

CaptureOnTouch Pro is PC client-based scanning software that offers a user-friendly interface using simple icon-based operation and has powerful document processing tools. Setup jobs to save to multiple formats including PDF, PNG, JPEG, TIFF, BMP, PPTX, Word* and Excel*, supports OCR, barcode and 2D code recognition, and output index data files for smooth integration into existing workflows and document management systems.

## SAVE OPERATIONAL COSTS

Utilise Canon's DR Scanner Management Tool to simultaneously monitor and distribute settings for large number of scanners across your business and user environments.

## REDUCE ENVIRONMENTAL IMPACT

Using replacement roller refill kit helps to minimise waste, while packaging made from reusable and biodegradable materials helps reduce plastic consumption. The DR-C300 Series models have very low power consumption and save on resources with optimal number of parts used.
