Lifetime warranty

Express Desk stand for flat panels from 37" to 65"
Video Bar Shelf
Cable-management and Mini PC stowage in column
Table clamp included

Speed up Microsoft Express deployment with this free-standing desk stand. Designed for large displays from 37" to 65", it allows for ultra-quick setup of meeting spaces without the need to mount a display on the wall. Simply set the stand at the end of the table, and you are ready to go!

Up to 65"
Most larger displays use VESA arrangement of mounting points up to 600 x 400 mm apart, so this stand fits the majority of displays up to this size. Note: if a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

Cable Management
The column is large enough to accommodate a power distribution splitter, and cable tie anchors are integrated to keep it tidy.

Accommodates PC
A mini PC, such as Lenovo or Dell's Optiplex, can be mounted inside the column. These are positioned at the top, facilitating heat dissipation and providing convenient access to the power buttons, as illustrated in the images.

Table Clamp
The stand is designed to be self-supporting, with the balance in the centre. For additional peace of mind a clamp is provided to secure it to the edge of a table up to 90 mm thick.

Height-Adjustable Shelf
The shelf is designed for video bars or cameras and can support the placement of a camera either above or below the display. Perfect for Zoom or Microsoft Teams meetings!
