

LANCOM Wall Mount (LN)

Robust wall bracket for a theft-proof and flexible mounting of LANCOM devices in LN housing

The LANCOM Wall Mount (LN) consists of one wall bracket with kensington lock, one padlock, and one drilling template. It offers optimal anti-theft protection for LANCOM devices in LN housing and maximum flexibility for the installation of access points at walls or ceilings.

- Robust wall bracket for the mounting of LN access points on walls or ceilings
- Anti-theft protection due to a 4-times kensington lock and included padlock
- Inclusive drill template and installation guide
- Simple exchange thanks to identical drilling fixture compared to the LANCOM Wall Mount

LANCOM Wall Mount (LN)

Robust wall bracket for wall- or ceiling mounting

The pre-drilled mounting board can be fixed directly at the wall and has four hooks, which the access point in LN housing can be easily clipped into. Additional security feature: In order to remove the device, a screwdriver is needed, which pushes the hooks back.

Theft-proof thanks to kensington lock

The LANCOM Wall Mount (LN) safeguards LANCOM devices in LN housing with the help of a 4-times kensington lock. Therefore, LANCOM access points can be securely installed even at places with a high visitor-density. The included padlock assures that the kensington lock is easily and reliably secured.

Simple exchange

The attached drilling template is compatible to that of the LANCOM Wall Mount. This way one can use the drilling holes and the already implemented screws for the mounting of the LANCOM Wall Mount (LN). This saves additional effort and time.

LANCOM Wall Mount (LN)

Additional information	
Function	Robust wall bracket for the mounting of LN access points on walls or ceilings, including theft protection
Supported devices	LANCOM LN-830acn dual Wireless
Item number(s)	
LANCOM Wall Mount (LN)	61342
