Go to www.elotouch.com/support to download user manual.

1

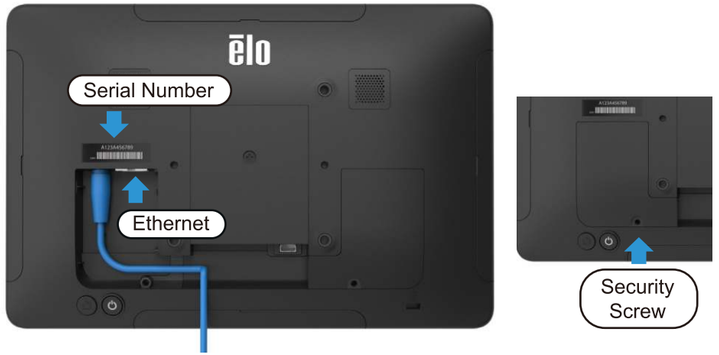

Remove the left side cable cover by lifting upward

2

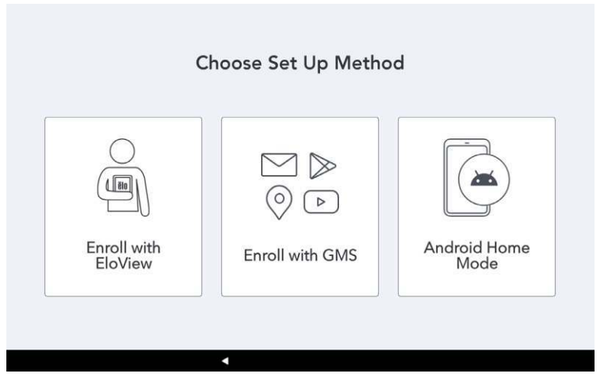

Connect the power cable. The system will power on automatically when plugged in. A tie-wrap (included) can be used to secure the power cable from accidental removal.

3

Connect an Ethernet cable now (or setup WiFi later). Once all cables are connected, reinstall the cable over and secure with included security screw.

4

After powering on the Elo I-Series AIO, please choose a set up method. To set up your device with EloView, select the “Enroll with Eloview” option. This will take you to a “Connect to Wi-Fi” page to set up your wireless network if no Ethernet is connected.

5 **Add device to EloView®**

To add your device to your EloView account, go to the EloView web portal at manage.eloview.com. After logging in, go to the ‘Devices’ page, then click the ‘add device’ button. Enter the device serial number (see step 3 for location) and a name for the device. Click ‘done’.

Your device is now linked to your EloView account and you can assign content to play on the device. If the device is connected via Ethernet the device will automatically load content and settings. Visit www.eloview.com for details.

EU Battery Regulation

This symbol on the battery(ies) or on the packaging indicates that the battery(ies) provided with this product should not be treated as household waste. Instead, please separate the battery(ies) from other types of waste and recycle them through your local recycling system to protect the environment and health. The chemical symbol for lead (Pb) is added under this symbol if the battery(ies) contains more than 0.004% lead. Additionally, the chemical symbol for cadmium (Cd) is added under this symbol if the battery(ies) contains more than 0.002% cadmium.

For more detailed information about the recycling of these batteries, please contact your local authority or the shop where you purchased the product or batteries.
