

InLine® Charger for Lithium and NiCd+NiMH batteries, with Powerbank function

* Preise inkl. gesetzlicher MwSt. zzgl. Versandkosten

Marke: INL

Bestell-Nr.: 01287L

The InLine® battery charger is exclusively suitable for NiCd/NiMH and Li-Ion batteries and is a quick and easy solution for charging your batteries. The LED status indicator always shows you the battery charge level.

- Input Power: AC 100-240V, optionally DC 12V/1,5A
- Suitable for: 4 NiMH, NiCd or Li-Ion batteries
- Charging current: for Li-Ion 4.2V 500mA x4 or 1000mA x2, for NiMH/Cd: 1.48V 500mA x4
- USB output 5V/1A
- Powerbank function: Plug up to 2 batteries into slots 3 and 4 and use the charger as a powerbank via the USB output (5V/1A)
- Protection against overcharging, overheating, overvoltage and short circuit
- Current charge status of each battery is indicated by the number of illuminated LEDs
- Charging stops automatically when the battery is full
- Power: 12W maximum
- Dimensions (LxWxH): 155x94x33mm
- Packing content: Charger, Power cord and manual

The following battery formats are supported:

- 1.2V NiMH/NiCd Battery: A, AA, AAA, AAAA, C, SC
- 3,7V Li-Ion round cell: 10340 / 10350 / 10440 / 10500 / 12340 / 12500 / 12650 / 13450 / 13500 / 13650 / 14350 / 14430 / 14500 / 14650 / 16500 / 16340(123A) / 16650 / 17350 / 17500 / 17650 / 17670 / 18350 / 18490 / 18500 /

18650 / 18700 / 20700 / 21700 / 22500 / 22650 / 25500 / 26500 / 26650
